SHAPING A BETTER FUTURE FOR GENERATIONS

ANNUAL REPORT 2025

Shaping a Better Future for Generations

This cover concept highlights the importance of family, care, and long-term financial well-being, reflecting the message of the tagline “**Shaping a Better Future for Generations.**” Multi-generational family symbolises security, trust, and the reassurance that loved ones are supported through every stage of life. It represents MCIS Life’s role in helping individuals and families plan ahead with confidence, offering financial solutions that contribute to stability and resilience over time. The warm and uplifting imagery reinforces the idea that with thoughtful planning and reliable protection, families can look forward to a stronger and more secure future together, demonstrating MCIS Life’s enduring commitment to safeguarding lives today while shaping a better future for generations to come.

Corporate Snapshot

Notice of Twenty-Ninth Annual General Meeting

NOTICE IS HEREBY GIVEN THAT the Twenty-Ninth Annual General Meeting of the Company will be conducted fully via Remote Participation and Voting (video-conferencing) on Wednesday, 24 June 2026 at 11.00 a.m. with the Main Venue at Cape Town (MCIS Boardroom) at Wisma MCIS, Level 1 Tower 1, Jalan Barat, 46200 Petaling Jaya, Selangor Darul Ehsan for the purpose of transacting the following businesses:

AGENDA

As Ordinary Business

1	To receive the Audited Financial Statements of the Company for the financial year ended 31 December 2025 together with the Directors' and Auditors' Reports therein.	Please refer to Explanatory Note 1
2	To approve the Directors' remuneration and benefits of up to RM2.5 million for the period from 25 June 2026 until the conclusion of the next Annual General Meeting.	Ordinary Resolution 1 Please refer to Explanatory Note 2
3	To re-elect the following Director retiring in accordance with Article 70 of the Company's Articles of Association and being eligible, he offers himself for re-election: i. Gopala Krishnan A/L K. Sundaram	Ordinary Resolution 2
4	To re-elect the following Directors retiring in accordance with Article 72 of the Company's Articles of Association and being eligible, they offer themselves for re-election: i. Cheryl Khor Hui Peng ii. Omer Abdullah iii. Datuk Sahadivanaidu A/L Baliah	Ordinary Resolution 3 Ordinary Resolution 4 Ordinary Resolution 5
5	To re-appoint Messrs KPMG PLT as Auditors of the Company and to authorise the Directors to fix their remuneration.	Ordinary Resolution 6

As Special Business

To consider and, if thought fit, to pass the following Ordinary Resolution:

6	Authority to Directors pursuant to Section 75 and 76 of the Companies Act, 2016 "THAT pursuant to Section 75 and 76 of the Companies Act, 2016, the Directors be and are hereby empowered to issue and allot shares in the Company, at any time and upon such terms and conditions and for such purposes as the Directors may, in their absolute discretion, deem fit, provided that the aggregate number of shares to be issued pursuant to this resolution does not exceed 10% of the issued and paid-up share capital of the Company for the time being and that the Directors be further empowered to obtain the approval of the relevant authorities and that such authority shall continue to be in force until the conclusion of the next Annual General Meeting of the Company."	Ordinary Resolution 7 Please refer to Explanatory Note 3
7	To transact any other business of which due notice in writing shall have been given.	

By Order of the Board

MARY CONSTANCIA D'SILVA (MAICSA 7020517), (Practicing Certificate 202008003164)

Company Secretary

Petaling Jaya
29th May 2026

Notice of Twenty-Ninth Annual General Meeting

EXPLANATORY NOTES

(1) Audited Financial Statements for the Financial Year ended 31 December 2025

Agenda item number 1 is meant for discussion only as the provision of Section 340(1) of the Companies Act, 2016 does not require a formal approval of shareholders for the Audited Financial Statements. Hence, this item on the Agenda will not be put forward for voting.

(2) Directors' Benefits Payable

The proposed Directors' benefits payable comprises allowances and other benefits.

The total estimated amount of Directors' benefits payable is calculated based on the number of scheduled Board and Board Committees meetings for the current financial year ended 31 December 2025 until the next Annual General Meeting. This authority, unless revoked or varied by the Company in a general meeting will expire at the conclusion of the next Annual General Meeting of the Company.

(3) Authority to Allot Shares Pursuant to Section 75 and 76 of the Companies Act, 2016

The proposed Ordinary Resolution 7 is the renewal of the mandate obtained from members at the last Annual General Meeting ("the previous mandate"). As at the date of this Notice, the Company did not allot any shares pursuant to the mandate granted to the Directors at the Twenty-Eight Annual General Meeting held on 24 June 2025 as there were no requirements for such fund raising activities.

The proposed Ordinary Resolution 7, if passed, would provide flexibility to the Directors to undertake fund raising activities, including but not limited to further placement of shares for the purpose of funding the Company's future investment project(s), working capital and/or acquisition(s), by the issuance of shares in the Company to such persons at any time as the Directors may deem fit provided that the aggregate number of shares issued pursuant to the mandate does not exceed 10% of the total number of issued shares of the Company for the time being, without having to convene a general meeting. This authority, unless revoked or varied by the Company in a general meeting, will expire at the conclusion of the next Annual General Meeting of the Company or at the expiry of the period within which the next annual general meeting is required to be held after the approval was given, whichever is earlier.

**GOPALA KRISHNAN
A/L K. SUNDARAM**

Chairman and Independent,
Non-Executive Director

Mr. Gopala Krishnan A/L K. Sundaram was appointed as an Independent Non-Executive Director of the Company on 10 March 2025. He also serves as the Chairman of the Governance Committee of the Board and as a member of the Audit Committee.

Mr. Gopal graduated in 1982 with a Bachelor of Law (Hons) degree from the University of Malaya under a Bank Negara Malaysia scholarship. He is currently a partner of Abdullah Chan & Co., Kuala Lumpur. Prior to joining Abdullah Chan & Co., he served for 30 years in various capacities at Bank Negara Malaysia from 1982 until his retirement as Assistant Governor of the Bank in 2011. After retirement, he was appointed for over a year as Project Advisor for the drafting of the Financial Services Act 2013 and the Islamic Financial Services Act 2013.

He is the only member of the International Monetary Law Committee of the International Law Association (MOCOMILA) from ASEAN. He is also a member of the Panel of Experts of P.R.I.M.E. Finance, based at the Peace Palace in The Hague.

With over 42 years working experience in regulatory, legal, and related fields Mr. Gopal has also undertaken consultancy assignments for the World Bank and served as an International Regulatory Expert with the Asian Development Bank.

He currently sits on the Boards of Tenaga Nasional Berhad and YTL Digital Bank Berhad as an Independent Director, and had previously held a similar role at Kuwait Finance House (Malaysia) Berhad.

**KOKULA KRISHNAN
A/L GANESALINGAM
(GOPI GANESALINGAM)**

Independent,
Non-Executive Director

Mr. Gopi Ganesalingam is an Independent Board Director at MCIS Life since 19 August 2020, where he serves on the Board Risk, Audit, Technology, and Remuneration Committees.

He is also the Senior Vice President, Industry and Ecosystem at Malaysia Digital Economy Corporation (MDEC), where he leads national initiatives to strengthen Malaysia's digital industry, deepen industry collaboration, and advance an innovation-led digital ecosystem.

In this role, Mr. Gopi oversees programme planning and execution across key digital-economy priorities, including the delivery of national initiatives such as GAIN, FOX, and Malaysia's digital exports expansion programmes. These initiatives have enabled international market access and supported the global scaling of Malaysian technology companies. His portfolio further encompasses industry facilitation, digital investments, digital content development, and funding facilitation for Malaysia Digital (MD) companies, working closely with industry leaders, investors, government agencies, and global partners.

A Finance graduate and a Fellow of CPA Australia, Mr. Gopi brings over 37 years of leadership experience spanning multinational corporations, government-linked agencies, and entrepreneurial ventures. His career includes senior roles at Matsushita, American Express, Alcatel-Lucent, and Telstra. He later co-founded and led Lava Protocols, serving as a go-to-market partner for Salesforce and Google, before joining MDEC in 2015.

Beyond his executive and board roles, Mr. Gopi is an Adjunct Professor at Asia Pacific University of Technology & Innovation (APU) and the Chairman and Trustee of Junior Achievement Malaysia, a non-profit organisation dedicated to empowering young Malaysians through entrepreneurship, work-readiness, and financial-literacy programmes.

Get to Know Our Board of Directors

**ABDUL RAHMAN
BIN TALIB**

Independent,
Non-Executive Director

Mr. Abdul Rahman Bin Talib was appointed as Independent Non-Executive Director of the Company on 16 April 2025. He serves as the Chair of the Nominations Remuneration Committee and a member of the Board Risk Management Committee. He holds a Masters in Business Administration (MBA) and Bachelor in Business Administration from the University of Miami, Coral Gables, Florida, USA. He is a Fellow of the Asian Institute of Insurance and a Member of Institute of Corporate Directors Malaysia.

Mr. Rahman retired as the Chief Executive Officer of Pacific & Orient Insurance Company Berhad (P&O) in 2018 after serving as CEO and Director for 20 years. He joined P&O in 1997 as General Manager, Investment.

Mr. Rahman currently serves as an Independent Non Executive Director in Syarikat Takaful Malaysia Am Berhad. He is also a director in a private company, ARTAB Sdn Bhd.

**CHERYL
KHOR HUI PENG**

Independent,
Non-Executive Director

Ms. Cheryl Khor Hui Peng, a Malaysian aged 50, is our Independent Non-Executive Director.

She was appointed to our Board on 3 November 2025.

Ms. Cheryl Khor graduated with a Bachelor of Mathematics (Honours). She is a member of the Malaysian Institute of Certified Public Accountants (MICPA) and Malaysian Institute of Accountants (MIA). She is also a Fellow and Faculty Member of the Institute of Corporate Directors Malaysia (ICDM) which was established by the Securities Commission Malaysia and supported by Bank Negara Malaysia, Bursa Malaysia and the Capital Market Development Fund. As a faculty member of ICDM, she conducts training for directors on various board, governance and sustainability topics.

Ms. Cheryl Khor has more than twenty-five (25) years of experience covering financial, operational and internal audits as well as governance, controls, sustainability, internal audit and risk assessments for many companies across a broad range of industries.

She began her career in 1998 as a financial auditor and Chartered Accountant at Ernst & Young. Ms. Cheryl Khor diversified her skill sets and breadth of experience when she joined Deloitte in 2013 where she led the Risk Advisory practice, complementing her Chartered Accountant experience with sustainability, governance and risk expertise. She was appointed as Managing Director of Deloitte Risk Advisory in 2014 and held the position until 2021. Whilst in Deloitte, she held numerous leadership positions culminating her career as the Asia Pacific Accounting and Internal Control Leader and was also a member of the Deloitte South East Asia Board of Directors.

Currently, she is a Director of Alliance Bank Malaysia Berhad, Kuala Lumpur Kepong Berhad and Hong Leong Industries Berhad, companies listed on the Main Market of Bursa Malaysia Securities Berhad. She is also a Director of Chubb Insurance Malaysia Berhad, Leader Energy Holdings Berhad and RAM Holdings Berhad, all public companies.

Get to Know Our Board of Directors

OMER ABDULLAH

Executive Director

Mr. Omer Abdullah was appointed as Executive Director of MCIS Insurance Berhad on 24 November 2025. He currently serves as the Head of Sanlam Malaysia, a role he assumed in October 2024.

He brings over four decades of experience across the general and life insurance sectors, supported by a strong international career spanning South Africa, Mexico, Colombia, India, and China. He is recognised for his strategic leadership, results-driven approach, and proven ability to develop high-performing teams and lead key organisational initiatives.

Mr. Omer began his career with Old Mutual Life Assurance Company (South Africa) Limited (“Old Mutual”) in 1982 and progressed through various senior leadership roles. His career culminated in his appointment as Director and Chief Executive Officer of Old Mutual’s joint venture in China, a position he held from 2016 to 2023.

He completed the Strategic Leadership Programme at the London Business School in 2013, attained a Certification of Directorship in 2016, and completed the CEO Programme in China in 2017.

In addition to his role at MCIS Insurance Berhad, Mr. Omer serves as a Non-Independent and Non-Executive Director on the Board of Pacific & Orient Insurance Co. Berhad, representing Sanlam Emerging Markets Proprietary Limited. He has held this position since 22 April 2025.

DATUK SAHADIVANAIDU A/L BALIAH

Non-Independent,
Non-Executive Director

Datuk Sahadivanaidu A/L Baliah was appointed to the Board on 5 March 2026 as a Non-Independent, Non-Executive Director. He brings with him a wealth of experience garnered over more than five decades in the co-operative sector.

He holds a Master of Business Administration from Warnborough University, United Kingdom. Datuk Sahadivanaidu retired as the Chief Executive Officer of National Land Finance Co-operative Society Limited (“NLFCS”) in 2013 and subsequently assumed the role of Managing Director, a position he continues to hold to date. Throughout his distinguished career, he has been deeply involved in shaping policies, governance, and strategic development within the co-operative movement both locally and regionally.

Datuk Sahadivanaidu has served as a member of the Malaysian Co-operative Education Trust Fund from 2004 to 2008 and the Malaysian Co-operative Tribunal from 2004 to 2009. At the international level, he has contributed as a member of the International Asia-Pacific Co-operative Agricultural Committee, further underscoring his standing within the global co-operative community.

A respected advocate for sustainable and inclusive economic development, Datuk Sahadivanaidu has participated in numerous national and international conferences, presenting papers on co-operative values, opportunities, and challenges. Among his notable engagements are his presentation at the 7th International Co-operative Alliance Regional Congress (Asia-Pacific) in Colombo and his Keynote Address at the ICA-AP Co-operative Trade and Business Conference 2023, titled “*Balancing Sustainability and Profitability in the Agriculture, Forestry and Property Industry*”.

Chairman’s Statement

“ Dear Shareholders,

It is a distinct honour to address you for the first time as the Chairman of MCIS Life. Since my appointment on 23 March 2026, I have spent my initial months engaging with our Board and Management team. These conversations have reinforced my confidence in the competence of our people and the strength of the MCIS Life brand. This transition has been an invigorating period of discovery, and I am inspired by the dedication I see across every level of the organisation. ”

Chairman's Statement

NAVIGATING A COMPLEX LANDSCAPE

Our performance in 2025 must be viewed against a backdrop of significant industry-wide shifts, rising health and medical care pressures and external conflict. The year was marked by:

- **Accounting Transitions:**

The continued implementation and impact of MFRS 17 have altered the timing of profit recognition, contributing to the net loss of RM21.3 million reported for the financial year.

- **Medical Inflation:**

We faced a challenging environment of rising medical claims and pricing pressures, which tested the margins of the entire life insurance sector. It will come as no surprise to insurance agencies and claimants that insurers paid out a record RM9.4 billion in medical claims for 2025, a 5.3% increase over 2024.

- **Economic Uncertainty:**

Volatile market conditions, rising living costs and geo-political conflict required us to remain agile in our investments, operational and financial management.

KEY HIGHLIGHTS FOR 2025

- 1 **Resilient Revenue Growth:**

Insurance revenue increased by 7.3%, rising from RM460.7 million in 2024 to RM494.3 million in 2025. This indicates steady growth in our core underwriting of life and investment-linked insurance products, reflecting positive momentum in new business and policy retention.

- 2 **Digital Expansion:**

MCIS Life is prioritising market expansion by advancing a comprehensive digital framework alongside a robust data strategy. These initiatives are aimed at strengthening business execution, leveraging data for more informed decision-making, and enhancing the overall customer experience to capture a larger share of the market.

- 3 **Significant Strengthening of Liquidity:**

Despite the challenging operating environment, the Company improved its liquidity position through prudent capital and investment management initiatives, thereby enhancing overall balance sheet resilience. Continued emphasis on premium collection, policy persistency, and disciplined cash flow management contributed to a significant improvement in cash flow from operating activities, which increased to RM212.1 million during the year. As a result, the Company's cash and cash equivalents strengthened from RM260.5 million to RM472.6 million as at the end of 2025.

DELIVERING ON OUR PROMISE

The true measure of an insurance company is its ability to stand by its customers when they need it most. Despite the pressures of medical inflation and a rising cost of living, MCIS Life remained a pillar of support for our policyholders.

In 2025, the MCIS Life paid out an estimated RM491 million in claims - we have achieved this while maintaining a strong and resilient capital position, ensuring we remain fully equipped to support our policyholders' future needs and fuel our own long-term growth.

STRATEGIC MOMENTUM & GROWTH

While the broader life insurance industry saw modest growth of 0.65%, MCIS Life outperformed the market significantly by achieving 9.79% growth in Annualised Premium Equivalent (APE). This momentum is a direct result of our Board's unwavering focus on market expansion, operational excellence and financial prudence.

Chairman's Statement

A key successful initiative has been the diversification of our unique product offerings, namely the NCSM LungShield, developed in partnership with the National Cancer Society of Malaysia (NCSM). As the first insurance coverage of its kind in Malaysia, NCSM LungShield is an integrated lung cancer screening and diagnostic programme designed to detect lung cancer at its earliest stages. The programme includes complimentary insurance coverage of up to RM10,000 for one year to help ease screening and diagnostic costs for Malaysians. By introducing solutions that emphasise early detection of critical illnesses, we strengthen our ability to provide relevant and impactful protection.

Operational excellence remains a key priority, as we enhance customer engagement through digital transformation and continuous innovation. At the same time, we uphold strong financial prudence by balancing ambitious growth targets with a disciplined and responsible approach to expenditure.

We are optimistic about the path forward. Our focus will remain on strengthening profitability, enhancing operational effectiveness, and

The true measure of an insurance company is its ability to **stand by its customers when they need it most.**

continuing to invest in capabilities that drive long-term value. Sanlam's continued support remains a key enabler of our progress, providing both stability and access to global expertise. Their shareholding strengthens our ability to accelerate transformation and embed best practices across the organisation.

ACKNOWLEDGEMENTS

In closing, I would like to highlight that leadership transitions are a natural and essential part of a healthy organisation's evolution. I wish to record my deepest appreciation to those who have contributed significantly to the success of MCIS Life. In particular, I extend my sincere gratitude to my predecessor and former Chairman, En. Mohammad Nizar bin Idris, for his steadfast leadership

over the years, and to our outgoing Chief Executive Officer, Mr. Prasheem Seebran, for his dedication and service.

I am pleased to welcome our new Chief Executive Officer, Mr. Grant Davids, who joined us on 11 May 2026. His global perspective and proven leadership in driving complex transformations position him well to lead MCIS Life into its next phase of growth.

The appointments of Ms. Cheryl Khor Hui Peng, Mr. Omer Abdullah and Datuk Sahadivanaidu Baliah as Directors further strengthen the Board's diversity, expertise and leadership capabilities. Their extensive professional experience and strategic insights will enhance the Board's effectiveness in providing strong governance, sound oversight and long-term strategic guidance, supporting the Company's sustainable growth and value creation.

On behalf of the Board, I would like to express our heartfelt appreciation to our staff, agents and business partners for their unwavering dedication and commitment throughout the year. I thank our shareholders for their continued trust and confidence, which enables us to remain focused on building our business and a resilient future together.

Sustainability Report

2025 Sustainability Journey

In 2025, we continued to advance our sustainability journey by embedding responsible practices across our governance, operations and community initiatives. As a life insurance provider, our purpose goes beyond providing financial protection. We are committed to supporting healthier lives, strengthening community resilience and ensuring the long-term sustainability of our business. Guided by this commitment, we made meaningful progress during the year in strengthening climate governance, expanding inclusive protection solutions, reducing our environmental footprint and enhancing the wellbeing of the communities and employees we serve.

A key milestone during the year was the publication of our inaugural **Task Force on Climate-related Financial Disclosures (TCFD) Report**, which enhances transparency on how we identify, assess and manage climate-related risks and opportunities. By aligning our disclosures with globally recognised climate reporting practices, we reinforce our commitment to integrating climate considerations into our enterprise risk management and strategic decision-making processes. Recognising the importance of strong oversight, members of our Board also participated in dedicated training on climate risk governance and disclosure requirements, ensuring that climate-related risks and opportunities continue to be effectively considered at the highest level of decision-making.

MCIS Life x NCSM LungShield

In parallel, we continued to strengthen our role in supporting better health outcomes and expanding access to protection. During the year, we collaborated with the **National Cancer Society Malaysia (NCSM)** to introduce **LungShield**, a microinsurance solution designed to provide affordable protection against lung cancer under the National Lung Health Initiative. By combining financial protection with initiatives that promote early detection, NCSM LungShield helps address protection gaps while improving access to essential healthcare support. This initiative contributes to **United Nations Sustainable Development Goal 3 and**

Goal 10, reinforcing our commitment to advancing inclusive healthcare and supporting healthier communities.

Alongside these efforts, we remained focused on reducing the environmental impact of our operations. Since 2018, we have achieved a 30% reduction in electricity consumption, reflecting sustained efforts to improve operational efficiency and promote more sustainable workplace practices. These actions support our broader climate ambition as we remain firmly committed to achieving net-zero emissions by 2050, with an interim target of reducing total emissions by 50% by 2030. Through

Sustainability Report

these initiatives, we aim to progressively decarbonise our operations while strengthening the resilience and sustainability of our business.

Our commitment to sustainability also extends to the communities we serve. During the year, we partnered with **Agensi Kaunseling dan Pengurusan Kredit (AKPK)** to deliver structured financial literacy programmes in Miri and Sandakan, benefiting 150 government agency personnel. The programme provided practical guidance on financial planning, debt management and long-term financial resilience, supporting individuals in building stronger financial foundations.

In support of public health, we also collaborated with the **National Cancer Society Malaysia** through the **Purple Truck** initiative to provide free cancer screening services to our employees and underserved communities. By bringing essential healthcare services directly to workplaces and rural areas, the initiative helps promote early detection and improve access to preventive healthcare. Complementing these efforts, we organised a childhood cancer donation drive, mobilising employees and stakeholders to support families affected by childhood cancer while raising broader awareness of the challenges faced by young patients and their caregivers.

Internally, we continued to foster a workplace culture that prioritises employee wellbeing and sustainability awareness. During the year, we organised a dedicated Wellness Week named **“MCIS Life Feel Good Fest”** aimed at encouraging healthier lifestyle choices while strengthening employee engagement. The programme featured a range of initiatives designed to support employee health and promote

Financial Literacy Program in Partnership with AKPK

Purple Truck

NCSM Childhood Donation Drive

Sustainability Report

social responsibility. These included a blood donation drive to support national healthcare needs, partnering with **Alpro Pharmacy** on medicine recycling programme to encourage responsible disposal of unused medication, and a subsidised influenza vaccination programme to help protect employees from seasonal illnesses. In addition, employees were encouraged to adopt healthier eating habits through the promotion of nutritious food and beverage options within the workplace.

Employee health awareness was further strengthened through targeted wellness programmes. **Pink Pause** focused on women’s health by raising awareness on cancer prevention and the importance of early detection. Complementing this initiative, **Bro Pause** was introduced to promote men’s wellness, particularly in raising awareness of prostate health. As part of the programme, male employees received complimentary PSA screening and smokelyser analysis, empowering them to take proactive steps towards early detection and healthier lifestyles.

MCIS Life Feel Good Fest

Medicine Recycling Program

Pink Pause

Bro Pause

Taken together, these initiatives reflect our continued commitment to integrating sustainability into the way we operate and serve our stakeholders. By strengthening governance, expanding access to protection, reducing our environmental footprint and investing in the wellbeing of our communities and employees, we are building a more resilient and responsible organisation. As we look ahead, we remain committed to advancing our sustainability agenda, working collaboratively with our partners and stakeholders to create lasting value for society while fulfilling our role as a trusted life insurance provider.

Sustainability Report

2026 Sustainability Aspiration

Building on the progress achieved in 2025, we remain committed to strengthening our sustainability agenda in the year ahead. As a life insurance provider, our long-term aspiration is to continue integrating sustainability into our governance, operations and stakeholder engagement while supporting healthier communities and a more resilient environment. In 2026, we aim to further advance our sustainability journey through enhanced climate governance, deeper decarbonisation efforts, expanded community initiatives and stronger employee wellbeing programmes.

A key focus area for 2026 will be strengthening our sustainability governance and disclosure practices. We plan to embark on the implementation of **IFRS S1 and IFRS S2** disclosure reporting, aligning our sustainability and climate-related disclosures with internationally recognised reporting standards under the **National Sustainability Reporting Framework (NSRF)**. As part of this effort, we intend to leverage AI-enabled tools to support data management, analysis and reporting processes. This digital transformation initiative is expected to position the Company ahead of evolving regulatory expectations while progressively building internal capabilities in artificial intelligence and data-driven sustainability management. Through this approach, we aim to enhance the quality, transparency and efficiency of our sustainability disclosures while reinforcing our long-term governance framework.

Alongside these governance enhancements, we will continue advancing our efforts to reduce the environmental impact of our operations. Having secured renewable energy sources in 2025, we expect to fully offset our **Scope 2 emissions from 2026 onwards**, marking a significant milestone in our decarbonisation journey. At the same time, we intend to promote more sustainable commuting

practices by incentivising employees to utilise public transportation and adopt greener mobility options. These initiatives reflect our broader commitment to supporting low-carbon operations while encouraging environmentally responsible behavior within our workforce.

Looking ahead, we also plan to deepen our understanding of our climate impact by expanding our greenhouse gas (GHG) inventory to include **financed emissions** associated with our investment portfolio. As a life insurer with long-term investment responsibilities, assessing financed emissions represents an important step in strengthening our climate risk management and aligning our investment practices with global climate ambitions.

Beyond our operational footprint, we remain committed to contributing positively to the communities we serve. In 2026, we plan to continue supporting public health initiatives through ongoing **free cancer screening programmes delivered via the Purple Truck initiative**, in collaboration with the **National Cancer Society Malaysia (NCSM)**. By bringing essential screening services closer to workplaces and underserved communities, the programme aims to promote early detection and improve

health awareness. In parallel, we intend to further expand our financial literacy initiatives, working with partners such as **Agensi Kaunseling dan Pengurusan Kredit (AKPK)** to reach more targeted community segments and strengthen financial resilience among individuals and families.

Internally, we will continue to prioritise employee wellbeing as a key pillar of our sustainability strategy. In 2026, we aim to introduce additional programmes that support a healthier workforce, including complimentary health check-ups, weight management initiatives and activities that encourage healthier lifestyles. We also plan to promote greater awareness of nutrition and wellbeing by encouraging the adoption of healthier food choices and supplements. Through these initiatives, we seek to cultivate a workplace environment that supports both the physical and mental wellbeing of our employees while reinforcing a culture of sustainable living.

Our sustainability aspirations also extend to environmental stewardship and biodiversity conservation. In early 2026, we launched the **100 Native Tree Species** educational book, developed in collaboration with the **Forest Research Institute Malaysia (FRIM)**. The publication highlights the ecological importance of Malaysia's

Sustainability Report

native tree species and aims to raise greater awareness of biodiversity conservation. As part of our corporate social responsibility efforts, copies of the book will be donated to selected school libraries, supporting environmental education and encouraging younger generations to develop a deeper appreciation for nature and biodiversity.

MCIS Life 100 Native Tree Species Book Launch

By enhancing governance, accelerating our decarbonisation efforts, supporting healthier communities and employees, and promoting environmental awareness, we aim to continue creating long-term value for our stakeholders while fulfilling our role as a responsible and trusted life insurance provider.

Directors' report

The directors hereby submit their report together with the audited financial statements of the Group and of the Company for the year ended 31 December 2025.

Principal activity

The Company is principally engaged in the underwriting of life and investment linked insurance. There has been no significant change in the principal activity during the financial year. The principal activities of the subsidiaries are disclosed in Note 7 of the financial statements.

Results

	Group and Company RM'000
Net loss for the year	<u>(21,317)</u>

There were no material transfers to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

In the opinion of the directors, the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

Dividends

There were no dividends paid since the end of the previous financial year. The Directors have not recommended any final dividend to be paid for the current financial period under review.

Share capital and debentures

There was no change in the issued and paid-up capital of the Company and no debentures issued during the financial year.

Directors' benefits (cont'd.)

During the financial year, the total amount of indemnity given to, or insurance effected for the directors or officers of the Company, through its ultimate holding company, Sanlam Limited, are up to ZAR2,000,000,000 (equivalent to RM478,153,000) in aggregate on a group basis. The indemnity premium is borne by Sanlam Limited.

In addition, a directors and officers' liability insurance has been entered into by the Company for the financial year ended 31 December 2025 pursuant to Section 289 of the Companies Act, 2016. The details of the insurance is as follows:

	Premium paid	Sum insured
	RM'000	RM'000
Directors and officers' liability insurance	50	10,000

Directors' interests

None of the directors in office at the end of the financial year had any interest in shares in the Company or its related corporations during the financial year.

Corporate governance disclosures

The Company has complied with the prescriptive requirements of, and adopted management practices that are consistent with the principles prescribed under Bank Negara Malaysia's ("BNM") Policy Document on Corporate Governance, as disclosed from pages 7 to 34.

Holding companies

The immediate and ultimate holding companies are Sanlam Emerging Markets Proprietary Limited ("SEM") and Sanlam Limited respectively. Both companies are incorporated in South Africa.

Subsidiaries

The details of the Company's subsidiaries are disclosed in Note 7 to the financial statements.

Other statutory information

- (a) Before the statement of financial position and statement of profit or loss of the Group and of the Company were made out, the directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that there were no known bad debts and that adequate allowance had been made for doubtful debts; and

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

Other statutory information (cont'd.)

- (a) Before the statement of financial position and statement of profit or loss of the Group and of the Company were made out, the directors took reasonable steps: (cont'd.)
- (i) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the directors are not aware of any circumstances which would render:
- (i) the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; and
 - (ii) render the values attributed to current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) As at the date of this report, there does not exist:
- (i) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.
- (f) In the opinion of the directors:
- (i) no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Company to meet their obligations when they fall due; and
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

Other statutory information (cont'd.)

For the purpose of paragraphs (e) and (f), contingent or other liabilities do not include liabilities arising from insurance contracts underwritten in the ordinary course of business of the Group and of the Company.

- (g) Before the statement of financial position and statement of profit or loss of the Group and of the Company were made out, the directors took reasonable steps to ascertain that there was adequate provision for insurance contract liabilities in accordance with the requirements of MFRS 17 *Insurance Contracts* issued by the Malaysian Accounting Standards Board ("MASB").

Auditors

The auditors, KPMG PLT, have indicated their willingness to accept the re-appointment.

The total amount paid to or receivable by the auditors as remuneration for their services as auditors is RM860,000.

There was no indemnity given to, or insurance effected for auditors of the Group and of the Company during the financial year.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors dated 19 March 2026.

Corporate governance disclosures (as referred to in the Directors' Report)

Directors' profiles

Mr. Mohammad Nizar bin Idris was appointed as a non-independent, non-executive director of the Company on 23 March 2016. He was then appointed as Chairman of the Board on 1 April 2020. He obtained his Bachelor in Law (Honours) Degree from the University of Singapore in 1967. He was admitted as an Advocate and Solicitor of the High Court of Malaya and attended the Advance Management Programme by Harvard University, Boston in 1994.

He started his career in the judicial and legal service of the government. He was the Senior Federal Counsel responsible for tax and treasury matters. Thereafter, he left the government service to join the private sector. He joined Royal Dutch Shell ("Shell") and worked in Malaysia, the Netherlands and in the UK. During his last posting in Shell London, he was the Head of the Legal Division responsible for Shell's investment, joint ventures, mergers and acquisitions worldwide. Before retiring from Shell, he returned to Malaysia to assume the position of Deputy Chairman and Executive Director of the Shell Companies in Malaysia. He was also the Chairman of Shell Chemicals Malaysia and Chairman of holding company Shell Malaysia Ltd.

After his retirement, he was appointed as a director on the boards of several companies including a bank, investment bank and Khazanah Nasional Bhd. He has resigned from the Boards of all these companies.

Currently he is the Chairman of CDC Consulting Sdn Bhd and Swift Energy Technology Berhad. He is a director of Furmanite (M) Sdn Bhd, Speciality Industrial Services Sdn Bhd and FIDE Forum.

Directors' profiles (cont'd.)

Mr. Kokula Krishnan a/l Ganesalingam (a.k.a. Gopi Ganaseelingam) is an Independent Non-Executive Board Director at MCIS Life since 19 August 2020, where he serves as the Chairman of the Audit Committee and Transformation and Innovation Committee of the Board, and as a member of the Nominations Remuneration Committee. He is also the Senior Vice President, Industry and Ecosystem at Malaysia Digital Economy Corporation (MDEC), where he leads national initiatives to strengthen Malaysia's digital industry, deepen industry collaboration, and advance an innovation-led digital ecosystem.

In this role, Gopi oversees programme planning and execution across key digital-economy priorities, including the delivery of national initiatives such as GAIN, FOX, and Malaysia's digital exports expansion programmes. These initiatives have enabled international market access and supported the global scaling of Malaysian technology companies. His portfolio further encompasses industry facilitation, digital investments, digital content development, and funding facilitation for Malaysia Digital (MD) companies, working closely with industry leaders, investors, government agencies, and global partners.

A Finance graduate and a Fellow of CPA Australia, Gopi brings over 37 years of leadership experience spanning multinational corporations, government-linked agencies, and entrepreneurial ventures. His career includes senior roles at Matsushita, American Express, Alcatel-Lucent, and Telstra. He later co-founded and led Lava Protocols, serving as a go-to-market partner for Salesforce and Google, before joining MDEC in 2015.

Beyond his executive and board roles, Gopi is an Adjunct Professor at Asia Pacific University of Technology & Innovation (APU) and the Chairman and Trustee of Junior Achievement Malaysia, a non-profit organisation dedicated to empowering young Malaysians through entrepreneurship, work-readiness, and financial-literacy programmes.

Directors' profiles (cont'd.)

Mr. Gopala Krishnan K. Sundaram was appointed as an Independent Non-Executive Director of the Company on 10 March 2025. He also serves as the Chairman of the Governance Committee and Risk Management Committee of the Board and as a member of Audit Committee.

Mr. Gopala graduated 1982 with a Bachelor of Law (Hons) degree from the University of Malaya under a Bank Negara Malaysia scholarship. He is currently a partner of Abdullah Chan & Co., Kuala Lumpur. Prior to joining Abdullah Chan & Co., he served for 30 years in various capacities at Bank Negara Malaysia from 1982 until his retirement as Assistant Governor of the Bank in 2011. After retirement, he was appointed for over a year as Project Advisor for the drafting of the Financial Services Act 2013 and the Islamic Financial Services Act 2013. He is the only member of the International Monetary Law Committee of the International Law Association (MOCOMILA) from ASEAN. He is also a member of the Panel of Experts of P.R.I.M.E. Finance, based at the Peace Palace in The Hague.

With over 42 years working experience in regulatory, legal, and related fields Mr. Gopala has also undertaken consultancy assignments for the World Bank and served as an International Regulatory Expert with the Asian Development Bank.

He currently sits on the Boards of Tenaga Nasional Berhad and YTL Digital Bank Berhad as an Independent Director, and had previously held a similar role at Kuwait Finance House (Malaysia) Berhad.

Mr. Abdul Rahman Talib was appointed as Independent Non-Executive Director of the Company on 16 April 2025. He serves as the Chairman of Nominations Remuneration Committee and a member of the Board Risk Management Committee. He holds a Masters in Business Administration (MBA) and Bachelor in Business Administration from the University of Miami, Coral Gables, Florida, USA. He is a Fellow of Asian Institute of Insurance and Member of Institute of Corporate Directors Malaysia.

Mr. Rahman retired as the Chief Executive Officer of Pacific & Orient Insurance Company Berhad (P&O) in 2018 after serving as CEO and Director for 20 years. He joined P&O in 1997 as General Manager, Investment.

Mr. Rahman currently serves as an Independent Non Executive Director in Syarikat Takaful Malaysia Am Berhad. He is also a director in a private company, ARTAB Sdn Bhd.

Ms. Cheryl Khor Hui Peng, a Malaysian aged 50, is our Independent Non-Executive Director. She was appointed to our Board on 3 November 2025.

Ms. Cheryl Khor Hui Peng graduated with a Bachelor of Mathematics (Honours). She is a member of the Malaysian Institute of Certified Public Accountants (MICPA) and Malaysian Institute of Accountants (MIA). She is also a Fellow and Faculty Member of the Institute of Corporate Directors Malaysia (ICDM) which was established by the Securities Commission Malaysia and supported by Bank Negara Malaysia, Bursa Malaysia and the Capital Market Development Fund. As a faculty member of ICDM, she conducts training for directors on various board, governance and sustainability topics.

Ms Cheryl Khor has more than twenty-four (25) years of experience covering financial, operational and internal audits as well as governance, controls, sustainability, internal audit and risk assessments for many companies across a broad range of industries.

She began her career in 1998 as a financial auditor and Chartered Accountant at Ernst & Young. Ms Cheryl Khor diversified her skill sets and breadth of experience when she joined Deloitte in 2013 where she led the Risk Advisory practice, complementing her Chartered Accountant experience with sustainability, governance and risk expertise. She was appointed as Managing Director of Deloitte Risk Advisory in 2014 and held the position until 2021. Whilst in Deloitte, she held numerous leadership positions culminating her career as the Asia Pacific Accounting and Internal Control Leader and was also a member of the Deloitte South East Asia Board of Directors.

Currently, she is a Director of Alliance Bank Malaysia Berhad, Kuala Lumpur Kepong Berhad and Hong Leong Industries Berhad, companies listed on the Main Market of Bursa Malaysia Securities Berhad. She is also a Director of Chubb Insurance Malaysia Berhad, Leader Energy Holdings Berhad and RAM Holdings Berhad, all public companies.

Mr. Omer Abdullah was appointed as Executive Director of MCIS Insurance Berhad on 24 November 2025. He currently serves as the Head of Sanlam Malaysia, a role he assumed in October 2024.

He brings over four decades of experience in the general and life insurance sectors, supported by a strong international career spanning South Africa, Mexico, Colombia, India, and China. He is recognised for his strategic leadership, results driven approach, and proven ability to develop high performing teams and lead key organisational initiatives across huge cultural diverse environments.

Mr. Omer is an accomplished executive and has held various leadership positions within Financial Services. He began his career with Old Mutual Life Assurance Company (South Africa) Limited ("Old Mutual") in 1982 and progressed through various senior leadership roles. His career culminated in his appointment as Board Director and Chief Executive Officer of Old Mutual China, a joint venture with China Energy Capital Holdings – a subsidiary of China Energy. A position he held from 2016 to 2023.

He completed the Strategic Leadership Programme at the London Business School in 2013, attained a Certification of Directorship in China in 2016, and completed the CEO Programme in China in 2017.

In addition to his role at MCIS Insurance Berhad, Mr. Omer serves as a Non Independent and Non Executive Director on the Board of Pacific & Orient Insurance Co. Berhad, representing Sanlam Emerging Markets Proprietary Limited. He has held this position since 22 April 2025.

Datuk Sahadivanaidu Baliah was appointed to the Board on 5 March 2026 as a Non-Independent, Non-Executive Director. He brings with him a wealth of experience garnered over more than five decades in the co-operative sector.

He holds a Master of Business Administration from Warnborough University, United Kingdom. Datuk Sahadivanaidu retired as the Chief Executive Officer of National Land Finance Co-operative Society Limited ("NLFCS") in 2013 and subsequently assumed the role of Managing Director, a position he continues to hold to date. Throughout his distinguished career, he has been deeply involved in shaping policies, governance, and strategic development within the co-operative movement both locally and regionally.

Datuk Sahadivanaidu has served as a member of the Malaysian Co-operative Education Trust Fund from 2004 to 2008 and the Malaysian Co-operative Tribunal from 2004 to 2009. At the international level, he has contributed as a member of the International Asia Pacific Co-operative Agricultural Committee, further underscoring his standing within the global co-operative community.

A respected advocate for sustainable and inclusive economic development, Datuk Sahadivanaidu has participated in numerous national and international conferences, presenting papers on co-operative values, opportunities, and challenges. Among his notable engagements are his presentation at the 7th International Co-operative Alliance Regional Congress (Asia Pacific) in Colombo and his Keynote Address at the ICA-AP Co-operative Trade and Business Conference 2023, titled "*Balancing Sustainability and Profitability in the Agriculture, Forestry and Property Industry*",

<u>Members:</u>	
Mr. Gopala Krishnan K. Sundaram (appointed on 10 March 2025)	3/3
Ms. Cheryl Khor Hui Peng (appointed as member on 3 November 2025, appointed as chairperson on 24 November 2025)	1/1
Mr. Casparus Jacobus Hendrik Kromhout (resigned on 20 October 2025)	3/3

The BAC supports the Board in ensuring that there is a reliable and transparent financial reporting process within the Company. They also oversee the effectiveness of the internal audit function by:

- (a) Reviewing and approving the Annual Audit Plan and its revision;
- (b) Reviewing key audit reports and ensuring that Senior Management takes necessary corrective actions on a timely manner to address control weaknesses, non-compliance with laws and regulatory requirements, policies and other issues identified by the Internal Audit Division and other control functions;
- (c) Reviewing the independence and reporting relationships of Internal Audit Division as well as the adequacy and relevance of the scope, functions, competency and resources and the necessary authority to carry out its work; and

(i) Board Audit Committee ("BAC") (cont'd.)

- (d) Establishing a mechanism to assess the performance and effectiveness of the Internal Audit function.

In addition, the BAC fosters a quality audit of the Company by exercising oversight over the external auditor in accordance with the expectations set out in the BNM guidelines. The main duties and responsibilities of the AC on the external auditor are:

- (a) Making recommendations to the Board on the appointment, removal and remuneration of the external auditor;
- (b) Monitoring and assessing the independence of the external auditor including approval of the provision of non-audit services by the external auditor;
- (c) Monitoring and assessing the effectiveness of the external audit, including by meeting with the external auditor without the presence of senior management at least annually;
- (d) Maintaining regular, timely, open and honest communication with the external auditor, and requiring the external auditor to report to BAC on significant matters; and
- (e) Ensuring that senior management takes necessary corrective actions in a timely manner to address external audit findings and recommendations.

(ii) Board Risk Management Committee ("BRMC")

The BRMC comprises 3 independent, non-executive directors and 1 non-independent, non-executive director. The attendance of the members of the committee at the 4 committee meetings held during the financial year was as follows:

	Attendance
<u>Chairman:</u>	
Mr. Gopala Krishnan K.Sundaram (appointed on 23 June 2025)	2/2

(ii) Board Risk Management Committee ("BRMC") (cont'd.)

The role of the BRMC is to advise and assist the Board in fulfilling its responsibility with regard to overseeing the design and implementation of Company's risk assurance framework and responsibilities in accordance with BNM guidelines and SEM group policies. The BRMC assists the Board, including but not limited to:

- (a) determining the risk appetite and level of risk tolerance for the Company;
- (b) setting and implementing the Company risk assurance framework and supporting policies;
- (c) setting and implementing compliance related policies;
- (d) evaluating the adequacy and efficiency of the risk management system;
- (e) identifying the build-up and concentration of the various risks to which the Company is exposed;
- (f) establishing an independent risk management function;
- (g) establishing a process for appropriate risk disclosures to stakeholders;
- (h) ensuring that a formal assessment of the risk management processes is undertaken; and
- (i) overseeing the state of IT governance and information management and security across the Company.

(iii) Nominations Remuneration Committee ("NRC")

The NRC comprises 2 independent, non-executive directors and 1 non-independent, non-executive director. The attendance of the members of the committee at the 6 committee meetings and 1 adjourned meeting held during the financial year was as follows:

	Attendance
<u>Chairman:</u>	
Mr. Abdul Rahman Talib (appointed on 23 June 2025)	4/4

(iv) Transformation & Innovation Committee ("TIC") (cont'd.)

The role of the TIC is to advise and assist the Board in fulfilling its oversight responsibilities with respect to other sustainability activities of the Company, over and above technology, including but not limited to the monitoring and measurement of the Company's impact and its sustainability activities. TIC assist the Board including and not limited to:

(a) Strategy

- (i) Ensure effective implementation of the Digital Framework to drive the company's business strategy;
- (ii) Review and assess the effectiveness of Data Strategy and Practices in the Company, and how the Company is utilizing data in business decisions in order to optimize the use of Company resources;
- (iii) Review and assess the Customer Experience Strategy and Practices of the company, and how it finds application in the business practices and technology of the Company; and
- (iv) Review and assess how the data, customer experience and efficiency strategies of the Company shape the Enterprise Architecture of the Company.

(b) Technology Governance

- (i) Review and ensure that the company is operated within the technology risk appetite which is aligned with the Company's risk appetite statement including the corresponding risk tolerances for technology-related events and ensure key performance indicators and forward-looking risk indicators are in place;
- (ii) Review and recommend the Company's IT strategies, frameworks, and policies for the approval by the Board;
- (iii) Review and assess the Company's adequacy of IT policies and framework for identifying, measuring, monitoring and controlling risks as well as the extent to which these are operating effectively and supports implementation; and
- (iv) Ensure that the Technology functions (include but not limited to IT and Security) is set up to be commensurate with the Company's size, nature of operations and complexity of its business as well as having adequate resources and staffed by an appropriate number of experienced and qualified employees to achieve the company's strategic objectives.

Remuneration policies and practices

Remuneration philosophy

The Company's remuneration philosophy is to attract and retain qualified employees and achieve high performance through its people by paying fair and competitive remuneration packages consistent with the economic capacity of the Company, and commensurate with those of the industry in which the Company operates. The Company remuneration philosophy aims to:

- (i) Pay for performance taking into consideration:
 - (a) the interest of the Company's stakeholders;
 - (b) the performance of the Company as a whole;
 - (c) the performance of the respective business and support divisions; and
 - (d) the performance of the individual staff.

- (ii) Fair and equitable

The salaries paid to the employees are internally equitable, relative to similar jobs in the Company.

- (iii) Competitive

Consideration is also given to remain market competitive with the insurance and financial services group.

Remuneration governance

Policies related to remuneration for individual contributors and management employees are subject to the Talent Management & Remuneration Committee and Board's approval. This includes remuneration budgets, revision of salary ranges, collective agreements with executive union and national union of commercial workers as well as determining the overall performance bonus pool.

The individual appointments, performance appraisal and remuneration packages of the senior management and company secretary are also subject to the Board's approval.

Performance metrics

Performance management is implemented to ensure the Company, departments, and individuals remain aligned to the organisation's short-, medium- and long-term strategic goals, while reinforcing ethical, prudent and professional behaviour. The performance metrics used are reviewed periodically to ensure clear line-of-sight to long-term aspirations and to motivate desired outcomes consistent with the Company's core values. The performance appraisal of Senior Management and Key Responsible Persons is carried out by the Chief Executive Officer based on actual Company and individual performance. Thereafter, the performance ratings of Senior Management and Key Responsible Persons are submitted to the Nomination and Remuneration Committee for independent review and final approval, in accordance with the governance and oversight expectations under BNM's Corporate Governance framework.

Key performance metrics are applied as below:

Employees' performance and remuneration distributions are subject to robust moderation review by the Chief Executive Officer and Executive Management Committee members to ensure fairness and alignment to Company's performance in terms of financials, growth and risk. The moderation review allows for multiple level input and therefore minimises excesses or biasness in performance and remuneration practices. Particular focus on compliance and risk management is in place and set up to 20% of the total performance requirement for employees.

Remuneration policies and practices (cont'd.)

Performance metrics (cont'd.)

There were no changes to the Company's remuneration elements or structure during the financial year. The Company has implemented a Long-Term Variable Pay Plan ("LTV") designed to support the achievement of its long-term goals and aspirations. Under the LTV, a portion of variable remuneration is deferred, with higher deferral ratios applied to individuals holding greater levels of accountability, and payout is contingent upon the achievement of the Company's annual target embedded value as well as the performance of senior management and other material risk takers. The deferred LTV portion ensures that rewards reflect risks which may materialise over an extended period, and both vested and unvested amounts may be reduced or reversed through malus, clawback, or other downward adjustments in cases of poor individual-attributable performance or serious legal, regulatory, or internal policy breaches, thereby reinforcing strong alignment with long-term risk and performance outcomes.

Senior management and other material risk takers

(i) Senior management

Senior management of the Company is the highest level of management who direct and oversee the day-to-day operations of the Company. They typically are heads of the Company's functional divisions and departments. They possess significant influence over their departments in aligning the direction of the departments to the Company.

During the financial year, senior management comprises 15 key personnel who undertook the following roles:

1. Chief Executive Officer
2. Chief Agency Officer
3. Chief Technology Officer
4. Chief Financial Officer
5. Chief Investment Officer
6. Chief People Officer
7. Chief Compliance Officer*
8. Chief Risk Officer*
9. Chief Strategy Officer
10. Chief Internal Auditor*

Key internal control and risk management processes

(i) Governance and risk management framework

The Company has established a governance and risk management framework ("the framework") to serve as an overarching document that guides the Company's governance and risk management policies and procedures. The framework outlines the roles and responsibilities of the oversight functions within the Company in relation to governance and risk management matters. The framework also provides standard and common risk management philosophies and methodologies across all risk types and risk environments within the Company.

Corporate independence

The Company has complied with the requirements of BNM's Guidelines on Related Party Transactions (BNM/RH/GL 018-6) in respect of all its related party undertakings. Necessary disclosures were made to the Board and where required, the Board's prior approval for the transaction has also been obtained. All material related party transactions have been disclosed in the financial statements.

Enterprise Risk Management ("ERM") Framework

The Company has established a structured approach to enterprise-wide risk management within its risk management framework. This approach is supported by comprehensive risk frameworks, policies, and procedures that facilitate consistent risk identification, assessment, and management across the organization. The ERM framework is developed and continuously updated to align with prevailing regulatory requirements and best practices. It also draws from globally recognized risk management standards, such as ISO 31000 and the COSO ERM Framework, ensuring the Company's risk management practices remain robust, dynamic, and effective in a changing risk environment.

Risk Appetite Statements and Risk Tolerance Level

The Company's Risk Appetite Statement ("RAS") aims to articulate the types and quantum of risk it is prepared to take in pursuit of its strategic objectives. It sets out quantitative and qualitative boundaries on risk-taking activities which apply across the organization supplemented with the breakdown of these high-level statements into more detailed limits under the Risk Tolerance Levels. The risk appetite criteria have been specified for each of the risk categories affecting the Company as specified in the ERM framework and Risk Taxonomy.

Key internal control and risk management processes (cont'd.)

(i) Governance and risk management framework (cont'd.)

Risk Governance

The Company's risk governance framework adopts the "Three-Lines-of-Defence" model in managing the risks. It provides a formal, transparent and effective risk governance structure to promote active involvement from the Board, senior management and all employees in the risk management process across the Company.

The first line of defence rests upon the business units and support functions involved in risk taking who are responsible for ensuring that effective and appropriate processes are in place at all times in accordance with the framework. The amount of risk taken at each level of the organisation must be within the Company's risk appetite.

The second line of defence comprised of oversight functions namely Risk Management and Compliance that report directly to BRMC and BoD respectively, who are responsible for driving the overall risk management and compliance framework of the Company.

The third line of defence is assumed by the Internal Audit Division which is responsible for providing independent assurance and advisory insights over the design, effectiveness and implementation of the overall system of internal controls put in place by business units as well as the risk management and compliance functions.

The BRMC meets regularly, at least every quarter in a financial year, to review risk management reports of the Company.

Corporate governance disclosures (as referred to in the Directors' Report) (cont'd.)

Key internal control and risk management processes (cont'd.)

(i) Governance and risk management framework (cont'd.)

Risk Governance (cont'd.)

The Compliance function is responsible for regulatory change management process and coordinates with the business units and support functions to ensure timely and effective compliance. Throughout the year compliance training and awareness activities are conducted to promote a strong governance culture. Compliance monitoring and reviews are carried out on a risk-based approach in order to assess the adequacy of internal controls. Compliance reports to the Board at least on a quarterly basis on all compliance-related matters including compliance risk assessments, regulatory non-compliances, and compliance observations, in order to support the Board's oversight of the management of the Company's compliance risk.

Set out below are the key policies and procedures for Risk and Compliance:

- (i) The Compliance Policy outlines the roles and responsibilities of the Board, senior management, heads of departments, oversight functions and all staff in overseeing and ensuring effective management of compliance risks within the Company. In addition, the Compliance Policy provides guiding principles and minimum standards in relation to compliance risk.
- (ii) The Data Privacy Protection Policy provides an understanding of the requirements of the Personal Data Protection Act 2010 and other regulatory requirements relating to personal data and customer information. It also sets out processes and procedures for the Company to follow to ensure compliance with regulatory requirements. Amendments were made in 2025 to take into account the changes pursuant to the Personal Data Protection (Amendment) Act 2024, including assessment of Significant Harm and Significant Scale, Data Portability Request and notification to regulators on incidents of personal data breaches.
- (iii) The Anti-Money Laundering, Countering Financing of Terrorism, Countering Proliferation Financing (AML/CFT/CPF) Policy sets out the principles and direction to manage the Company's exposure money laundering, terrorism financing and proliferation financing risks. It sets out minimum standards, roles and responsibilities of the business units and support functions in AML/CFT/CPF compliance.
- (iv) The Anti-Bribery and Corruption Policy sets out the Company's standards in managing and mitigating bribery and corruption, by clarifying the roles and responsibilities of directors, employees, business associates and other third parties in observing and upholding the Company's zero tolerance approach to bribery and corruption. This together with the Gifts and Hospitality Policy provides procedures and guidance to prevent and detect bribery and corruption.

(i) Governance and risk management framework (cont'd.)

Risk Governance (cont'd.)

Set out below are the key policies and procedures for Risk and Compliance: (cont'd.)

- (v) The Whistleblowing Policy demonstrates the Company's commitment to the highest standards of ethics, integrity and professionalism. Procedures are in place that enable directors, employees and any other person coming into contact with the Company to report suspected wrongdoing with the knowledge that their concerns will be taken seriously, investigated appropriately and treated confidentially.
- (vi) The Enterprise Risk Management ("ERM") Framework to act as an overarching document for the Company's governance and risk management policies and procedures. The document aims to define governance and risk management roles, ensure all significant risks are properly addressed, and establish common risk management principles and methodologies across the Company.
- (vii) The Business Continuity Policy sets out MCIS Life's approach to ensuring continuity of critical operations during disruptions by defining roles, establishing a comprehensive BCM framework aligned with the Company's risk appetite, and ensuring compliance with Bank Negara Malaysia's Business Continuity Management requirements.
- (viii) The ICAAP Framework outlines key elements and processes of MCIS Life's Internal Capital Adequacy Assessment Process ("ICAAP") in response to the minimum requirements in the "Guidelines On ICAAP For Insurers" issued by Bank Negara Malaysia ("BNM"). The guidelines stipulate that Company is expected to actively manage its capital adequacy by taking into account the potential impact of business strategies on the Company's risk profile and overall financial resilience, and that ICAAP is a process that should be integrated with the Company's business planning, risk management processes and day-to-day operations to ensure adequate capital to meet the Company's capital requirements on an on-going basis.
- (ix) The Financial Risk Management Policy set forth the means by which the Company shall manage its financial risks as a way to improve performance. The document defines financial risk, outlines the scope and objectives, documents the roles and responsibilities of all parties, provides guiding principles and minimum standards, and sets out the process governing Financial Risk Management.

Risk Governance (cont'd.)

Set out below are the key policies and procedures for Risk and Compliance: (cont'd.)

- (x) The Technology Risk Management Framework outlines MCIS's approach to managing technology related risks as part of its ERM Framework by defining key risk domains, governance roles, and principles to ensure technology risks are controlled within approved thresholds and support business continuity.
- (xi) Cyber Resilience Framework acts as an overarching document for the governance for managing cyber risk and achieving its cyber resilience objectives. The document defines the Company's cyber risk governance roles, cyber resilience objectives and tolerances, core resilience principles, and required capabilities to ensure strong cyber preparedness, proactive threat detection, operational resilience, and effective incident and crisis response.
- (xii) The Information Security Policy demonstrates the Management's commitment to protect the security and privacy of information from a wide range of threats to minimize business risks and to ensure business continuity.

Risk Processes, Monitoring and Reporting

The Company has implemented comprehensive self-assessment processes across all business units and support functions to continuously evaluate the effectiveness of systems, internal controls, and compliance with regulatory requirements. The risk management process involves key activities, including the identification, analysis, and evaluation of risks, the implementation of mitigation measures, regular monitoring and review, and effective communication and consultation among stakeholders. Risk owners, such as Heads of Departments, are responsible for identifying risks within their areas, assessing the adequacy of existing controls, evaluating the likelihood and impact of these risks, and regularly monitoring and addressing them. The results of these evaluations are reviewed by the Risk Management team and reported to senior management and the Board to ensure robust oversight and informed decision-making.

The Company's Enterprise Risk Management (ERM) Policy also outlines processes for the monitoring, escalation, and reporting of Top Key Risks, Key Risk Indicators (KRIs), and metrics related to Operational, Financial, and Technology risks. These reports are presented monthly and quarterly to Management and the BRMC, ensuring effective governance and a proactive approach to managing risks.

MCIS Insurance Berhad

Corporate governance disclosures (as referred to in the Directors' Report) (cont'd.)

Key internal control and risk management processes (cont'd.)

(i) Governance and risk management framework (cont'd.)

Risk Culture

As part of "Tone from the Top", the Board and Senior Management emphasise in communications to employees on the need for good governance and strong risk and compliance, e.g. townhalls. The Company promotes risk management and compliance culture among all employees through regular departmental and divisional risk and compliance meetings and targeted risk and compliance awareness programmes such as road shows, workshops and knowledge sharing sessions.

(ii) Internal audit function

The Internal Audit function plays a vital role in supporting the Company's strategic objectives by applying an independent and systematic approach to assess and improve the effectiveness of risk management, internal controls, and governance processes. Serving as a key advisory partner to the BAC, Internal Audit provides critical insights into control gaps and process deficiencies. These insights enable timely and effective remedial actions, thereby reinforcing the Company's operational resilience and governance framework.

The function remains under the purview of the Internal Audit Division ("IAD"), operating autonomously within the Company to conduct independent assessments, consulting activities, and provide impartial assurance on the effectiveness of internal controls, risk management, and governance processes.

The Division continues to play a critical role in enhancing and safeguarding the Company's value by delivering advice and insights on the efficiency, effectiveness, and business relevance of internal processes, supporting the achievement of the Company's vision and strategic objectives.

This foundation of the Internal Audit function is anchored in the Internal Audit Charter, which defines the Division's objectives, mission, purpose, authority, responsibilities, independence, objectivity, standards and the Quality Assurance and Improvement Program.

(Incorporated in Malaysia)

Corporate governance disclosures (as referred to in the Directors' Report) (cont'd.)

Key internal control and risk management processes (cont'd.)

(ii) Internal audit function (cont'd.)

To reinforce and uphold its mandate, the IAD operates within an integrated structure of governing and control frameworks that collectively guide its approach to assurance and advisory services. These include the Global Internal Audit Standards™ issued by the Institute of Internal Auditors, effective January 2025 and the Bank Negara Malaysia Guidelines on the Effective Internal Audit Function for Licensed Institutions. Complementing these governing frameworks are internationally recognized control frameworks such as the COSO Internal Control Framework, the COSO Enterprise Risk Management Framework, the Criteria of Control Framework, the Sarbanes-Oxley Act, the IIA Three Lines Model, the IIA Global Technology Audit Guides, and the Control Objectives for Information and Related Technology (COBIT).

In addition to these external standards, the IAD is guided by comprehensive internal governing documents, including the Internal Audit Charter, the Board Audit Committee Charter, the Internal Audit Grading Framework, the Internal Audit Manual, the Investigation Manual, and the Sanlam Group Internal Audit Methodology. Furthermore, the Division adheres to relevant regulatory policies such as the Bank Negara Malaysia Corporate Governance Policy, the Bank Negara Malaysia Risk Governance Policy, and the Malaysia Code of Corporate Governance.

By embedding these frameworks and policies as the foundation of its operating principles, the IAD ensures a disciplined, robust, and value-driven approach to evaluating and reporting on the adequacy and effectiveness of the Company's internal control environment, risk management practices, and governance structures. This integrated methodology strengthens organizational resilience, enhances stakeholder confidence, and supports the achievement of the Company's strategic objectives.

Independence

The independence of the Internal Audit function is firmly established through the Chief Internal Auditor's (CIA) direct functional reporting to the BAC. This structure safeguards autonomy from the activities being audited, including managerial decisions related to operations, business matters, and internal control processes.

The CIA's direct reporting line to the BAC ensures unrestricted access to sensitive issues, enhancing the organizational standing of the function. Administrative reporting to the CEO grants authority to execute duties without hindrance and address challenging issues with Senior Management effectively.

Corporate governance disclosures (as referred to in the Directors' Report) (cont'd.)

Key internal control and risk management processes (cont'd.)

(ii) Internal audit function (cont'd.)

Annual Audit Plan

The IAD employs a risk-based and agile methodology to develop its Annual Audit Plan, integrating Company-wide governance, risk, and compliance factors alongside insights from other lines of defense. The plan prioritizes critical factors such as financial performance, risk exposure, control issues, prior audit opinions, regulatory requirements, and management requests.

The proposed Annual Audit Plan is reviewed and approved by the BAC, with regular progress updates provided throughout the year. In line with agile principles, the IAD continually reassesses the plan to ensure high-risk areas are prioritized and resources allocated efficiently. Any revisions or deviations are presented to the BAC for review and approval, maintaining alignment with the Company's evolving risk landscape.

Investigation & Ad Hoc Reviews

The IAD proactively addresses investigations concerning whistleblowing reports and incidents that may contravene internal policies or regulatory requirements. These investigations typically focus on areas such as confidentiality breaches and financial misconduct, particularly those with significant potential impact on the Company. Beyond whistleblowing cases, the Division also undertakes ad hoc reviews requested by key stakeholders, especially in areas identified as high-risk or of strategic importance. These mandated reviews provide independent assurance and actionable insights on critical issues, enabling timely interventions and strengthening governance, risk management, and internal control frameworks. By responding to emerging risks and stakeholder concerns with agility and rigor, the Internal Audit Division reinforces its role as a trusted assurance provider and a key contributor to organizational resilience.

Communicating Results and Monitoring Action Plans

Findings from internal audit reviews including observations, identified risks, root causes, recommendations, management's responses, and action plans are presented to the BAC for thorough evaluation and discussion. The IAD closely monitors the implementation of action plans to ensure remediation efforts are appropriate, effective, and completed within agreed timelines. When extensions to deadlines for rectification or remediation are necessary, the matter is escalated to the Executive Management Committee ("EMC"). This structured approach ensures a rigorous and accountable process for addressing and resolving internal audit observations.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF MCIS INSURANCE BERHAD

(Company No. 199701019821 (435318-U))
(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of MCIS Insurance Berhad, which comprise the statements of financial position as at 31 December 2025 of the Group and of the Company, and the statements of profit or loss, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 40 to 186.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2025, and of their financial performance and their cash flows for the year then ended in accordance with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board ("MFRS Accounting Standards"), IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), as applicable to audits of financial statements of public interest entities, and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

MCIS Insurance Berhad
(Company No. 199701019821 (435318-U))
Independent Auditors' Report for the
Financial Year Ended 31 December 2025

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information obtained at the date of this auditors' report is the Directors' Report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with MFRS Accounting Standards, IFRS Accounting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the ability of the Group and of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

MCIS Insurance Berhad
(Company No. 199701019821 (435318-U))
Independent Auditors' Report for the
Financial Year Ended 31 December 2025

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Group and of the Company.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group or of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that gives a true and fair view.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the financial statements of the Group. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors are disclosed in Note 7 to the financial statements.

Notes to the financial statements
For the financial year ended 31 December 2025

1. Corporate information

The Company is principally engaged in the underwriting of life and investment linked insurance. There was no significant change in the principal activity during the financial year. The principal activities of the subsidiaries is disclosed in Note 7 of the financial statements.

The Company is a public limited liability company, incorporated and domiciled in Malaysia. The principal place of business of the Company is located at Wisma MCIS, Jalan Barat, 46200 Petaling Jaya, Selangor Darul Ehsan.

The immediate and ultimate holding companies are Sanlam Emerging Markets Proprietary Limited ("SEM") and Sanlam Limited respectively. Both companies are incorporated in South Africa.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 19 March 2026. The consolidated financial statements for the year ended 31 December 2025 comprises the Company and its subsidiaries (together referred to as "the Group"). The financial statements of the Group for the year ended 31 December 2025 do not include other entities.

2. Material accounting policies

2.1 Basis of preparation

The financial statements of the Group and of the Company have been prepared in accordance with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board ("MFRS Accounting Standards"), IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") and the requirements of the Companies Act 2016 in Malaysia.

The accounting policies and presentation adopted by the Group and by the Company are consistent with those of the previous financial year as stated in Note 2.3. Standards, interpretations and amendments that have been issued by MASB but have not been adopted by the Group and by the Company are described in Note 2.4.

The financial statements of the Group and of the Company have been prepared under the historical cost convention, unless otherwise stated in the accounting policies below.

As at the reporting date, the Group and the Company has met the minimum capital adequacy requirements as prescribed under the Risk-Based Capital ("RBC") Framework issued by Bank Negara Malaysia ("BNM").

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.1 Basis of preparation (cont'd.)

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. Income and expense will not be offset in the income statement unless required or permitted by any accounting standard or interpretation, as specifically disclosed in the accounting policies of the Group and of the Company.

The financial statements are presented in Ringgit Malaysia ("RM") and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

2.2 Summary of material accounting policies

(a) Property and equipment and depreciation

All items of property and equipment are initially recorded at cost. Subsequent to initial recognition, property and equipment, except for land and buildings are stated at cost less accumulated depreciation and any accumulated impairment losses.

Land and buildings are stated at revalued amounts, which is the fair value at the date of the revaluation less any accumulated depreciation and any accumulated impairment losses. Fair value is determined from market-based evidence by appraisals that are undertaken by professionally qualified valuers. Revaluations are performed with sufficient regularity of at least once in every three years with additional valuations in the intervening years where market conditions indicate that the carrying values of the revalued assets are materially different from the fair values. Any increase in the carrying amount arising from the revaluation of land and buildings is credited to an asset revaluation reserve as a revaluation surplus in the insurance contract liabilities of the participating funds or statement of comprehensive income of the non-participating funds, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in the income statement in which case the increase is recognised in the income statement to the extent of the decrease previously recognised.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(a) Property and equipment and depreciation (cont'd.)

A revaluation deficit is first offset against previously recognised revaluation surplus in respect of the same asset in the statement of financial position, and any remaining deficit is thereafter recognised in profit or loss.

Freehold land has an unlimited useful life and therefore is not depreciated. Work-in-progress are also not depreciated until the assets are ready for their intended use.

Depreciation of other property and equipment is computed on a straight-line basis over its estimated useful life at the following annual rates:

Freehold and leasehold buildings	Over the remaining useful period or 50 years which ever is lower
Motor vehicles	20%
Furniture, fixtures and fittings	10%
Office equipment	10%
Computer equipment	20%
Office renovation	20%

The residual values, useful lives and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property and equipment.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in profit or loss.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(b) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets are not capitalised and expenditure is reflected in the income statement in the period in which the expenditure is incurred.

Intangible assets are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of five to ten years.

Costs associated with maintaining computer software programmes are recognised as an expense when incurred. Costs that are directly associated with identifiable and unique software products controlled by the Group and by the Company, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Costs include employee costs incurred as a result of developing software and an appropriate portion of relevant overheads. Computer software development costs recognised as assets are amortised using the straight line method over their estimated useful lives, not exceeding a period of ten years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the profit or loss when the asset is derecognised.

The carrying amount of assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2.2 Summary of material accounting policies (cont'd.)

(c) Leases

The Group and the Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) The Group and the Company as lessee

The Group and the Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

The Group and the Company recognises right-of-use assets at the lease commencement date. Right-of-use assets are measured at cost, less any accumulated amortisation and impairment losses, and adjusted for any re-measurement of lease liabilities, except for those leasehold lands, which are measured in accordance with MFRS 116 *Property, Plant and Equipment*.

The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and estimated useful lives of the assets.

The right-of-use assets are also subject to impairment as described in Note 2.2(d).

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(c) Leases (cont'd.)

(i) The Group and the Company as lessee (cont'd.)

(b) Lease liabilities

At the commencement date of the lease, the Group and the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase or extension option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Group and the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount of lease liabilities is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

(c) Short-term leases and leases of low-value assets

The Group and the Company applies the short-term lease recognition exemption to its short-term leases of equipment (i.e. these leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). The Group and the Company also applies the lease of low-value assets recognition exemption to leases of equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(c) Leases (cont'd.)

(ii) The Group and the Company as lessor

When the Group and the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

When the Group and the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group and the Company applies the exemption described above, then it classifies the sublease as an operating lease.

Rental income arising is accounted for as an straight-line basis over the lease term.

(d) Impairment of non-financial assets

The carrying amounts of assets are reviewed at each reporting date to determine whether there is any indication of impairment. Impairment is measured by comparing the carrying values of the assets with their recoverable amounts. The recoverable amount is the higher of the net realisable value and the value in use, which is measured by reference to discounted cash flows. Recoverable amounts are estimated for individual assets, or if it is not possible, for the cash-generating unit.

An impairment loss is recognised in profit or loss in the period in which it arises. Subsequent increases in the recoverable amount of an asset is treated as reversal of the previous impairment loss and is recognised to the extent of the carrying amount of the asset that would have been determined (net of amortisation and depreciation) had no impairment loss been recognised. A reversal of impairment loss is recognised in the income statement, unless the asset is carried at revalued amount, in which case, such reversal is treated as a revaluation increase.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(e) Financial instruments

On initial recognition, a financial asset is classified as measured at amortised cost or fair value through profit or loss ("FVTPL").

Amortised cost

The Group and the Company have designated its loan receivables which meet the condition as instruments at amortised cost.

FVTPL

All financial assets not classified as measured at amortised cost are measured at FVTPL. Any gains or losses from changes in fair value and interest are recognised in the income statement. On initial recognition the Group and the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

The Group and the Company have designated all their debt securities, which meet the above condition, as FVTPL, as the fair value option was elected.

All financial assets, except for those measured at FVTPL, are subject to impairment assessment (see Note 2.2(g)).

(f) Fair value measurement

The Group and the Company measure financial instruments and non-financial assets such as investment properties and right-of-use assets, at fair value at each reporting date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group and the Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(f) Fair value measurement (cont'd.)

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group and the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The fair value of financial instruments is determined by reference to marked-to-market prices for assets and offer prices for liabilities, at the close of business on the reporting date.

External valuers are involved for valuation of significant assets, such as properties. Involvement of external valuers is carried out annually by Finance and Property Department of the Group and of the Company. Selection criteria include market knowledge, experience, reputation, independence and whether professional standards are maintained. A valuation is done on an annual basis.

At each reporting date, the Finance and Property Department analyses the movements in the values of assets which are required to be re-measured or re-assessed in accordance with the Group and with the Company's accounting policies.

The Property Department and the Group's and the Company's external valuers also compare the changes in the fair value of each property with relevant external sources to determine whether the changes are reasonable.

The valuation results, as performed by the Group's and by the Company's external valuers, are presented to the Board in the year the valuation is performed.

For the purpose of fair value disclosures, the Group and the Company have determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability, and the level of the fair value hierarchy as described in Note 35.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(g) Impairment of financial assets

Financial instruments that are not measured at FVTPL

The Group and the Company recognise loss allowances for expected credit losses ("ECL") on loans receivables measured at amortised cost.

The Group and the Company assess on a forward looking basis the ECL associated with loans receivables measured at amortised cost. The Company recognises a loss allowance for ECL at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Group and the Company measure loss allowances at an amount equal to lifetime ECL, except for financial instruments on which credit risk has not increased significantly since their initial recognition.

12-month ECL represents the portion of lifetime ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

The Group and the Company assess at each reporting date whether a financial asset or group of financial assets is impaired.

(h) Derecognition of financial assets/liabilities

Financial assets are derecognised when the rights to receive cash flows from them have expired or where they have been transferred and the Group and the Company have also transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when the obligation under the liabilities are discharged, cancelled or expired.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(i) Basis of consolidation

Subsidiaries

Subsidiaries are entities including structured entities controlled by the Group and by the Company. The financial statements of the controlled structured entities are included in the consolidated financial statements of the Group from the date that control commences until the date that control ceases. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Structured entities

Structured entities are those that have been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity. Voting rights relate to administrative tasks. Relevant activities are directed by means of contractual arrangements. The Group invests in consolidated structure entities.

Loss of control

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(j) Insurance and reinsurance contracts

Classification

Contracts under which the Group and the Company accept significant insurance risk are classified as insurance contracts. Contracts held by the Group and the Company under which it transfers significant insurance risk related to underlying insurance contracts are classified as reinsurance contracts. Insurance and reinsurance contracts also expose the Group and the Company to financial risk.

The Group and the Company do not accept insurance risk from other insurers.

Insurance contracts may be issued and reinsurance contracts may be initiated by the Group and by the Company, or they may be acquired in a business combination or in a transfer of contracts that do not form a business. All references in these accounting policies to 'insurance contracts' and 'reinsurance contracts' include contracts issued, initiated or acquired by the Group and by the Company, unless otherwise stated.

Insurance contracts are classified as direct participating contracts or contracts without direct participation features. Direct participating contracts are contracts for which, at inception:

- the contractual terms specify that the policyholder participates in a share of a clearly identified pool of underlying items;
- the Group and the Company expect to pay to the policyholder an amount equal to a substantial share of the fair value returns on the underlying items; and
- the Group and the Company expect a substantial proportion of any change in the amounts to be paid to the policyholder to vary with the change in fair value of the underlying items.

All other insurance contracts and all reinsurance contracts are classified as contracts without direct participation features. Some of these contracts are measured under the PAA (see Note 2.2 (k) - Measurement – Contracts measured under the PAA).

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(j) Insurance and reinsurance contracts (cont'd.)

Separating components from insurance and reinsurance contracts

At inception, the Group and the Company assess the features of the insurance and reinsurance contracts whether the following components are present and require separation from the insurance and reinsurance contracts:

- derivatives embedded in the contract whose economic characteristics and risks are not closely related to those of the host contract, and whose terms would not meet the definition of an insurance or reinsurance contract as a stand-alone instrument; and
- distinct investment components: i.e. investment components that are not highly inter-related with the insurance components and for which contracts with equivalent terms are sold, or could be sold, separately in the same market or the same jurisdiction.

The Group and the Company currently do not issue any insurance contracts or enter into any reinsurance contracts that include the above components.

After separating any financial instrument components, the Group and the Company separate any promises to transfer to policyholders distinct goods or services other than insurance coverage and investment services and accounts for them as separate contracts with customers (i.e. not as insurance contracts). A good or service is distinct if the policyholder can benefit from it either on its own or with other resources that are readily available to the policyholder. A good or service is not distinct and is accounted for together with the insurance component if the cash flows and risks associated with the good or service are highly inter-related with the cash flows and risks associated with the insurance component, and the Group and the Company provide a significant service of integrating the good or service with the insurance component.

The Group and the Company currently does not issue any insurance contracts which provides distinct services or goods to the policyholders.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(j) Insurance and reinsurance contracts (cont'd.)

Aggregation and recognition of insurance and reinsurance contracts

Insurance contracts

Insurance contracts are aggregated into groups for measurement purposes. Groups of insurance contracts are determined by identifying portfolios of insurance contracts, each comprising contracts subject to similar risks and managed together, and dividing each portfolio into annual cohorts (i.e. by year of issue) and each annual cohort into three groups based on the profitability of contracts:

- any contracts that are onerous on initial recognition;
- any contracts that, on initial recognition, have no significant possibility of becoming onerous subsequently; and
- any remaining contracts in the annual cohort.

An insurance contract issued by the Group and by the Company is recognised from the earliest of:

- the beginning of its coverage period (i.e. the period during which the Group and the Company provide services in respect of any premiums within the boundary of the contract);
- when the first payment from the policyholder becomes due or, if there is no contractual due date, when it is received from the policyholder; and
- when facts and circumstances indicate that the contract is onerous.

An insurance contract acquired in a transfer of contracts or a business combination is recognised on the date of acquisition. The Group and the Company did not acquire any insurance contracts during the financial year. When the contract is recognised, it is added to an existing group of contracts or, if the contract does not qualify for inclusion in an existing group, it forms a new group to which future contracts are added. Groups of contracts are established on initial recognition and their composition is not revised once all contracts have been added to the group.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(j) Insurance and reinsurance contracts (cont'd.)

Aggregation and recognition of insurance and reinsurance contracts (cont'd.)

Reinsurance contracts

Groups of reinsurance contracts are determined by identifying the underlying direct contracts it covers, the corresponding reinsurer and dividing each portfolio into annual cohorts (i.e. by year of issue). Each annual cohort is categorized into three groups based on the profitability of the reinsurance contracts:

- a group of reinsurance contracts that are at a net gain to the Group and to the Company at initial recognition, if any;
- a group of reinsurance contracts that at initial recognition have no significant possibility of becoming a net gain to the Group and to the Company, if any; and
- a group of the remaining reinsurance contracts in the portfolio, if any.

Some reinsurance contracts provide cover for underlying contracts that are included in different groups. However, the Group and the Company conclude that the reinsurance contract's legal form of a single contract reflects the substance of the Group's and of the Company's contractual rights and obligations, considering that the different coverages lapse together and are not sold separately. As a result, the reinsurance contract is not separated into multiple insurance components that relate to different underlying groups.

A group of reinsurance contracts is recognised on the following dates.

- *Reinsurance contracts initiated by the Group and the Company that provide proportionate coverage:* The beginning of the coverage period of the group of reinsurance contracts. However, the Group and the Company will delay the recognition of a group of reinsurance contracts until the date on which any underlying insurance contract is initially recognised, if that date is later than the beginning of the coverage period of the group of reinsurance contracts. This applies to the Group's and the Company's quota share reinsurance contracts.
- *Other reinsurance contracts initiated by the Group and by the Company:* The beginning of the coverage period of the group of reinsurance contracts. However, if the Group and the Company recognise an onerous group of underlying insurance contracts on an earlier date and the related reinsurance contract was entered into before that earlier date, then the group of reinsurance contracts is recognised on that earlier date (see 'Reinsurance of onerous underlying insurance contracts' under Note 2.2 (k) Measurement - Contracts not measured under the PAA Reinsurance contracts (i)). This applies to the Group's and to the Company's surplus reinsurance contracts and excess of loss and stop loss reinsurance contracts.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(j) Insurance and reinsurance contracts (cont'd.)

Aggregation and recognition of insurance and reinsurance contracts (cont'd.)

A group of reinsurance contracts is recognised on the following dates. (cont'd.)

- *Reinsurance contracts acquired:* The date of acquisition.

Insurance acquisition cash flows

Insurance acquisition cash flows are allocated to groups of insurance contracts using a systematic and rational method and considering, in an unbiased way, all reasonable and supportable information that is available without undue cost or effort.

If insurance acquisition cash flows are directly attributable to a group of contracts (e.g. non-refundable commissions paid on issuance of a contract), then they are allocated to that group and to the groups that will include renewals of those contracts.

If insurance acquisition cash flows are directly attributable to a portfolio but not to a group of contracts, then they are allocated to groups in the portfolio using a systematic and rational method.

At each reporting date, the Group and the Company revise the amounts allocated to groups to reflect any changes in assumptions that determine the inputs to the allocation method used. Amounts allocated to a group are not revised once all contracts have been added to the group.

Contract boundaries

The measurement of a group of contracts includes all of the future cash flows within the boundary of each contract in the group, determined as follows.

Insurance contracts

Cash flows are within the contract boundary if they arise from substantive rights and obligations that exist during the reporting period in which the Group and the Company can compel the policyholder to pay premiums or has a substantive obligation to provide services (including insurance coverage and any investment services).

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(j) Insurance and reinsurance contracts (cont'd.)

Contract boundaries (cont'd.)

Insurance contracts (cont'd.)

A substantive obligation to provide services ends when:

- the Group and the Company have the practical ability to reassess the risks of the particular policyholder and can set a price or level of benefits that fully reflects those reassessed risks; or
- the Group and the Company have the practical ability to reassess the risks of the portfolio that contains the contract and can set a price or level of benefits that fully reflects the risks of that portfolio, and the pricing of the premiums up to the reassessment date does not take into account risks that relate to periods after the reassessment date.

The reassessment of risks considers only risks transferred from policyholders to the Group and to the Company, which may include both insurance and financial risks, but exclude lapse and expense risks.

Reinsurance contracts

Cash flows are within the contract boundary if they arise from substantive rights and obligations that exist during the reporting period in which the Group and the Company are compelled to pay amounts to the reinsurer or has a substantive right to receive services from the reinsurer.

A substantive right to receive services from the reinsurer ends when the reinsurer:

- has the practical ability to reassess the risks transferred to it and can set a price or level of benefits that fully reflects those reassessed risks; or
- has a substantive right to terminate the coverage.

The contract boundary is reassessed at each reporting date to include the effect of changes in circumstances on the Group's and on the Company's substantive rights and obligations and, therefore, may change over time.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement

Contracts not measured under the Premium Allocation Approach ("PAA")

Insurance contracts – Initial measurement

On initial recognition, the Group and the Company measure a group of insurance contracts as the total of (a) the fulfilment cash flows, which comprise estimates of future cash flows, adjusted to reflect the time value of money and the associated financial risks, and a risk adjustment for non-financial risk; and (b) the CSM. The fulfilment cash flows of a group of insurance contracts do not reflect the Group and the Company's non-performance risk.

The risk adjustment for non-financial risk for a group of insurance contracts, determined separately from the other estimates, is the compensation required for bearing uncertainty about the amount and timing of the cash flows that arises from non-financial risk.

The CSM of a group of insurance contracts represents the unearned profit that the Group and the Company will recognise as it provides services under those contracts. On initial recognition of a group of insurance contracts, if the total of (a) the fulfilment cash flows, (b) any cash flows arising at that date and (c) any amount arising from the derecognition of any assets or liabilities previously recognised for cash flows related to the group (including assets for insurance acquisition cash flows under (iii), if any) is a net inflow, then the group is not onerous. In this case, the CSM is measured as the equal and opposite amount of the net inflow, which results in no income or expenses arising on initial recognition.

If the total is a net outflow, then the group is onerous. In this case, the net outflow is recognised as a loss in profit or loss. A loss component is created to depict the amount of the net cash outflow, which determines the amounts that are subsequently presented in profit or loss as reversals of losses on onerous contracts and are excluded from insurance revenue (see Note 2.2 (l) - Presentation).

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Insurance contracts – Subsequent measurement

The carrying amount of a group of insurance contracts at each reporting date is the sum of the liability for remaining coverage and the liability for incurred claims. The liability for remaining coverage comprises (a) the fulfilment cash flows that relate to services that will be provided under the contracts in future periods and (b) any remaining CSM at that date. The liability for incurred claims includes the fulfilment cash flows for incurred claims and expenses that have not yet been paid, including claims that have been incurred but not yet reported.

(i) Insurance contracts without direct participation features

The fulfilment cash flows of groups of insurance contracts are measured at the reporting date using current estimates of future cash flows, current discount rates and current estimates of the risk adjustment for non-financial risk. Changes in fulfilment cash flows are recognised as follows.

Changes relating to future services	Adjusted against the CSM (or recognised in the insurance service result in profit or loss if the group is onerous)
Changes relating to current or past services	Recognised in the insurance service result in profit or loss
Effects of the time value of money, financial risk and changes therein on estimated future cash flows	Recognised as insurance finance income or expenses

The CSM of each group of contracts is calculated at each reporting date as follows.

The carrying amount of the CSM at each reporting date is the carrying amount at the start of the year, adjusted for:

- the CSM of any new contracts that are added to the group in the year;
- interest accreted on the carrying amount of the CSM during the year, measured at the discount rates on nominal cash flows that do not vary based on the returns on any underlying items determined on initial recognition;

(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Insurance contracts – Subsequent measurement (cont'd.)

(i) Insurance contracts without direct participation features (cont'd.)

- changes in fulfilment cash flows that relate to future services, except to the extent that:
 - any increases in the fulfilment cash flows exceed the carrying amount of the CSM, in which case the excess is recognised as a loss in profit or loss and creates a loss component (see Note 2.2 (l) - Presentation); or
 - any decreases in the fulfilment cash flows are allocated to the loss component, reversing losses previously recognised in profit or loss (see Note 2.2 (l) - Presentation);
- the effect of any currency exchange differences on the CSM; and
- the amount recognised as insurance revenue because of the services provided in the year (see Note 2.2 (l) - Presentation).

Changes in fulfilment cash flows that relate to future services comprise:

- experience adjustments arising from premiums received in the year that relate to future services and related cash flows, measured at the discount rates determined on initial recognition;
- changes in estimates of the present value of future cash flows in the liability for remaining coverage, measured at the discount rates determined on initial recognition, except for those that arise from the effects of the time value of money, financial risk and changes therein;
- differences between (a) any investment component expected to become payable in the year, determined as the payment expected at the start of the year plus any insurance finance income or expenses (see Note 2.2 (l) - Presentation) related to that expected payment before it becomes payable; and (b) the actual amount that becomes payable in the year;

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Insurance contracts – Subsequent measurement (cont'd.)

(i) Insurance contracts without direct participation features (cont'd.)

- differences between (a) any loan to a policyholder expected to become repayable in the year, determined as the repayment expected at the start of the year plus any insurance finance income or expenses (see Note 2.2 (l) - Presentation) related to that expected repayment before it becomes repayable; and (b) the actual amount that becomes repayable in the year; and
- changes in the risk adjustment for non-financial risk that relate to future services.

Changes in discretionary cash flows are regarded as relating to future services and accordingly adjust the CSM (see Note 8).

(ii) Direct participating contracts

Direct participating contracts (see Note 2.2 (j)) are contracts under which the Group and the Company's obligation to the policyholder is the net of:

- the obligation to pay the policyholder an amount equal to the fair value of the underlying items; and
- a variable fee in exchange for future services provided by the contracts, being the amount of the Group and of the Company's share of the fair value of the underlying items less fulfilment cash flows that do not vary based on the returns on underlying items. The Group and the Company provide investment services under these contracts by promising an investment return based on underlying items, in addition to insurance coverage.

When measuring a group of direct participating contracts, the Group and the Company adjusts the fulfilment cash flows for the whole of the changes in the obligation to pay policyholders an amount equal to the fair value of the underlying items. These changes do not relate to future services and are recognised in profit or loss. The Group and the Company then adjusts any CSM for changes in the amount of the Group and the Company's share of the fair value of the underlying items, which relate to future services, as explained below.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Insurance contracts – Subsequent measurement (cont'd.)

(ii) Direct participating contracts (cont'd.)

The carrying amount of the CSM at each reporting date is the carrying amount at the start of the year, adjusted for:

- the CSM of any new contracts that are added to the group in the year;
- the change in the amount of the Group's and of the Company's share of the fair value of the underlying items and changes in fulfilment cash flows that relate to future services, except to the extent that:
 - a decrease in the amount of the Group's and the Company's share of the fair value of the underlying items, or an increase in the fulfilment cash flows that relate to future services, exceeds the carrying amount of the CSM, giving rise to a loss in profit or loss (included in insurance service expenses) and creating a loss component (see Note 2.2 (l) - Presentation); or
 - an increase in the amount of the Group's and of the Company's share of the fair value of the underlying items, or a decrease in the fulfilment cash flows that relate to future services, is allocated to the loss component, reversing losses previously recognised in profit or loss (included in insurance service expenses) (see Note 2.2 (l) - Presentation);
- the effect of any currency exchange differences on the CSM; and
- the amount recognised as insurance revenue because of the services provided in the year (see Note 2.2 (l) - Presentation).

Changes in fulfilment cash flows that relate to future services include the changes relating to future services specified above for contracts without direct participation features (measured at current discount rates) and changes in the effect of the time value of money and financial risks that do not arise from underlying items – e.g. the effect of financial guarantees.

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Reinsurance contracts

To measure a group of reinsurance contracts, the Group and the Company apply the same accounting policies as are applied to insurance contracts without direct participation features, with the following modifications.

The carrying amount of a group of reinsurance contracts at each reporting date is the sum of the asset or liability for remaining coverage and the asset for incurred claims at the portfolio level. The asset or liability for remaining coverage comprises (a) the fulfilment cash flows that relate to services that will be received under the contracts in future periods and (b) any remaining CSM at that date.

The Group and the Company measure the estimates of the present value of future cash flows using assumptions that are consistent with those used to measure the estimates of the present value of future cash flows for the underlying insurance contracts, with an adjustment for any risk of non-performance by the reinsurer. The effect of the non-performance risk of the reinsurer is assessed at each reporting date and the effect of changes in the non-performance risk is recognised in profit or loss.

The risk adjustment for non-financial risk is the amount of risk being transferred by the Group and by the Company to the reinsurer.

On initial recognition, the CSM of a group of reinsurance contracts represents a net cost or net gain on purchasing reinsurance. It is measured as the equal and opposite amount of the total of (a) the fulfilment cash flows, (b) any amount arising from the derecognition of any assets or liabilities previously recognised for cash flows related to the group, (c) any cash flows arising at that date and (d) any income recognised in profit or loss because of onerous underlying contracts recognised at that date (see 'Reinsurance of onerous underlying insurance contracts' below).

However, if any net cost on purchasing reinsurance coverage relates to insured events that occurred before the purchase of the group, then the Group and the Company recognises the cost immediately in profit or loss as an expense.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Reinsurance contracts (cont'd.)

The carrying amount of the CSM at each reporting date is the carrying amount at the start of the year, adjusted for:

- the CSM of any new contracts that are added to the group in the year;
- interest accreted on the carrying amount of the CSM during the year, measured at the discount rates on nominal cash flows that do not vary based on the returns on any underlying items determined on initial recognition;
- income recognised in profit or loss in the year on initial recognition of onerous underlying contracts (see below);
- reversals of a loss-recovery component (see 'Net expenses from reinsurance contracts' under Note 2.2 (l) - Presentation) to the extent that they are not changes in the fulfilment cash flows of the group of reinsurance contracts;
- changes in fulfilment cash flows that relate to future services, measured at the discount rates determined on initial recognition, unless they result from changes in fulfilment cash flows of onerous underlying contracts, in which case they are recognised in profit or loss and create or adjust a loss-recovery component;
- the effect of any currency exchange differences on the CSM; and
- the amount recognised in profit or loss because of the services received in the year.

(i) Reinsurance of onerous underlying insurance contracts

The Group and the Company adjust the CSM of the group to which a reinsurance contract belongs and as a result recognises income when it recognises a loss on initial recognition of onerous underlying contracts, if the reinsurance contract is entered into before or at the same time as the onerous underlying contracts are recognised. The adjustment to the CSM is determined by multiplying:

- the amount of the loss that relates to the underlying contracts; and
- the percentage of claims on the underlying contracts that the Group and the Company expects to recover from the reinsurance contracts.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts not measured under the PAA (cont'd.)

Reinsurance contracts (cont'd.)

(i) Reinsurance of onerous underlying insurance contracts (cont'd.)

If the reinsurance contract covers only some of the insurance contracts included in an onerous group of contracts, then the Group and the Company use a systematic and rational method to determine the portion of losses recognised on the onerous group of contracts that relates to underlying contracts covered by the reinsurance contract.

A loss-recovery component is created or adjusted for the group of reinsurance contracts to depict the adjustment to the CSM, which determines the amounts that are subsequently presented in profit or loss as reversals of recoveries of losses from the reinsurance contracts and are excluded from the allocation of reinsurance premiums paid (see 'Net expenses from reinsurance contracts' under Note 2.2 (l) - Presentation).

Contracts measured under the PAA

The Group and the Company use the PAA to simplify the measurement of groups of contracts when the following criteria are met at inception.

- Insurance contracts: The coverage period of each contract in the group is one year or less.
- Loss-occurring reinsurance contracts: The coverage period of each contract in the group is one year or less.
- Risk-attaching reinsurance contracts: The Group and the Company reasonably expect that the resulting measurement of the asset for remaining coverage would not differ materially from the result of applying the accounting policies in Note 2.2 (k) - Measurement – Contracts not measured under the PAA. When comparing the different possible measurements, the Group and the Company consider the impact of the different release patterns of the asset for remaining coverage to profit or loss and the impact of the time value of money. If significant variability is expected in the fulfilment cash flows during the period before a claim is incurred, then this criterion is not met.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts measured under the PAA (cont'd.)

Insurance contracts

On initial recognition of each group of contracts, the carrying amount of the liability for remaining coverage is measured at the premiums received on initial recognition and adjusted for any amount arising from the derecognition of any assets or liabilities previously recognised for cash flows related to the group. The Group and the Company have chosen to expense insurance acquisition cash flows when they are incurred.

Subsequently, the carrying amount of the liability for remaining coverage is increased by any premiums received and decreased by the amount recognised as insurance revenue for services provided (see Note 2.2 (l) - Presentation). On initial recognition of each group of contracts, the Group and the Company expect that the time between providing each part of the services and the related premium due date is no more than a year. Accordingly, the Group and the Company has chosen not to adjust the liability for remaining coverage to reflect the time value of money and the effect of financial risk.

If at any time during the coverage period, facts and circumstances indicate that a group of contracts is onerous, then the Group and the Company recognise a loss in profit or loss and increases the liability for remaining coverage to the extent that the current estimates of the fulfilment cash flows that relate to remaining coverage exceed the carrying amount of the liability for remaining coverage. The fulfilment cash flows are discounted (at current rates) if the liability for incurred claims is also discounted (see below).

The Group and the Company recognise the liability for incurred claims of a group of insurance contracts at the amount of the fulfilment cash flows relating to incurred claims. The future cash flows are discounted (at current rates) unless they are expected to be paid in one year or less from the date the claims are incurred.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Contracts measured under the PAA (cont'd.)

Reinsurance contracts

The Group and the Company apply the same accounting policies to measure a group of reinsurance contracts, adapted where necessary to reflect features that differ from those of insurance contracts.

If a loss-recovery component (see 'Reinsurance of onerous underlying insurance contracts' under Note 2.2 (k) Contracts not measured under the PAA Reinsurance contracts (i)) is created for a group of reinsurance contracts measured under the PAA, then the Group and the Company adjust the carrying amount of the asset for remaining coverage instead of adjusting the CSM.

Derecognition and contract modification

The Group and the Company derecognises a contract when it is extinguished – i.e. when the specified obligations in the contract expire or are discharged or cancelled.

The Group and the Company also derecognise a contract if its terms are modified in a way that would have changed the accounting for the contract significantly had the new terms always existed, in which case a new contract based on the modified terms is recognised. If a contract modification does not result in derecognition, then the Group and the Company treats the changes in cash flows caused by the modification as changes in estimates of fulfilment cash flows.

On derecognition of a contract from within a group of contracts not measured under the PAA:

- the fulfilment cash flows allocated to the group are adjusted to eliminate those that relate to the rights and obligations derecognised;
- the CSM of the group is adjusted for the change in the fulfilment cash flows, except where such changes are allocated to a loss component;
- the number of coverage units for the expected remaining services is adjusted to reflect the coverage units derecognised from the group (see Note 2.2 (l) - Presentation).

MCIS Insurance Berhad

(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(k) Insurance and reinsurance contracts - Measurement (cont'd.)

Derecognition and contract modification (cont'd.)

If a contract is derecognised because it is transferred to a third party, then the CSM is also adjusted for the premium charged by the third party, unless the group is onerous. If a contract is derecognised because its terms are modified, then the CSM is also adjusted for the premium that would have been charged had the Group and the Company entered into a contract with the new contract's terms at the date of modification, less any additional premium charged for the modification. The new contract recognised is measured assuming that, at the date of modification, the Group and the Company received the premium that it would have charged less any additional premium charged for the modification.

(l) Insurance and reinsurance contracts - Presentation

Portfolios of insurance contracts that are assets and those that are liabilities, and portfolios of reinsurance contracts that are assets and those that are liabilities, are presented separately in the statement of financial position. Any assets or liabilities recognised for cash flows arising before the recognition of the related group of contracts (including any assets for insurance acquisition cash flows under (i)) are included in the carrying amount of the related portfolios of contracts.

The Group and the Company disaggregate amounts recognised in the statement of comprehensive income into (a) an insurance service result, comprising insurance revenue and insurance service expenses; and (b) insurance finance income or expenses.

Income and expenses from reinsurance contracts are presented separately from income and expenses from insurance contracts. Income and expenses from reinsurance contracts, other than insurance finance income or expenses, are presented on a net basis as 'net expenses from reinsurance contracts' in the insurance service result.

The Group and the Company disaggregate the financial component within changes in the risk adjustment for non-financial risk between the insurance service result and insurance finance income or expenses. All changes in the risk adjustment for the financial risk component is presented in insurance finance income or expenses.

Insurance revenue and insurance service expenses exclude any investment components and are recognised as follows.

(l) Insurance and reinsurance contracts - Presentation (cont'd.)

Insurance revenue – Contracts not measured under the PAA

The Group and the Company recognise insurance revenue as it satisfies its performance obligations – i.e. as it provides services under groups of insurance contracts. For contracts not measured under the PAA, the insurance revenue relating to services provided for each year represents the total of the changes in the liability for remaining coverage that relate to services for which the Group and the Company expect to receive consideration, and comprises the following items.

- A release of the CSM, measured based on coverage units provided (see 'Release of the CSM' below).
- Changes in the risk adjustment for non-financial risk relating to current services.
- Claims and other insurance service expenses incurred in the year, generally measured at the amounts expected at the beginning of the year. This includes amounts arising from the derecognition of any assets for cash flows other than insurance acquisition cash flows at the date of initial recognition of a group of contracts (see Note 2.2 (k) - Contracts not measured under the PAA), which are recognised as insurance revenue and insurance service expenses at that date.
- Other amounts, including experience adjustments for premium receipts for current or past services and amounts related to incurred policyholder tax expenses (see Note 24).

In addition, the Group and the Company allocate a portion of premiums that relate to recovering insurance acquisition cash flows to each period in a systematic way based on the passage of time. The Group and the Company recognise the allocated amount, adjusted for interest accretion at the discount rates determined on initial recognition of the related group of contracts, as insurance revenue and an equal amount as insurance service expenses.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(I) Insurance and reinsurance contracts - Presentation (cont'd.)

Release of the CSM (see also Note 8)

The amount of the CSM of a group of insurance contracts that is recognised as insurance revenue in each year is determined by identifying the coverage units in the group, allocating the CSM remaining at the end of the year (before any allocation) equally to each coverage unit provided in the year and expected to be provided in future years, and recognising in profit or loss the amount of the CSM allocated to coverage units provided in the year. The number of coverage units is the quantity of services provided by the contracts in the group, determined by considering for each contract the quantity of benefits provided and its expected coverage period. The coverage units are reviewed and updated at each reporting date.

Services provided by insurance contracts include insurance coverage and, for all direct participating contracts, investment services for managing underlying items on behalf of policyholders. In addition, life non-participating contracts may also provide investment services for generating an investment return for the policyholder, but only if:

- an investment component exists or the policyholder has a right to withdraw an amount (e.g. the policyholder's right to receive a surrender value on cancellation of a contract);
- the investment component or withdrawal amount is expected to include an investment return; and
- the Group and the Company expect to perform investment activities to generate that investment return.

The expected coverage period reflects expectations of lapses and cancellations of contracts, as well as the likelihood of insured events occurring to the extent that they would affect the expected coverage period. The period of investment services ends no later than the date on which all amounts due to current policyholders relating to those services have been paid.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(I) Insurance and reinsurance contracts - Presentation (cont'd.)

Insurance revenue – Contracts measured under the PAA

For contracts measured under the PAA, the insurance revenue for each period is the amount of expected premium receipts for providing services in the period. The Group and the Company allocate the expected premium receipts to each period on the basis of the passage of time.

Loss components

For contracts not measured under the PAA, the Group and the Company establish a loss component of the liability for remaining coverage for onerous groups of insurance contracts. The loss component determines the amounts of fulfilment cash flows that are subsequently presented in profit or loss as reversals of losses on onerous contracts and are excluded from insurance revenue when they occur. When the fulfilment cash flows are incurred, they are allocated between the loss component and the liability for remaining coverage excluding the loss component on a systematic basis.

The systematic basis is determined by the proportion of the loss component relative to the total estimate of the present value of the future cash outflows plus the risk adjustment for non financial risk at the beginning of each year (or on initial recognition if a group of contracts is initially recognised in the year).

Changes in fulfilment cash flows relating to future services and changes in the amount of the Group's and of the Company's share of the fair value of the underlying items for direct participating contracts are allocated solely to the loss component. If the loss component is reduced to zero, then any excess over the amount allocated to the loss component creates a new CSM for the group of contracts.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(I) Insurance and reinsurance contracts - Presentation (cont'd.)

Insurance service expenses

Insurance service expenses arising from insurance contracts are recognised in profit or loss generally as they are incurred. They exclude repayments of investment components and comprise the following items.

- *Incurred claims and other insurance service expenses:* For some non-participating contracts, incurred claims also include premiums waived on detection of critical illness.
- *Amortisation of insurance acquisition cash flows:* For contracts not measured under the PAA, this is equal to the amount of insurance revenue recognised in the year that relates to recovering insurance acquisition cash flows. For contracts measured under the PAA, the Group and the Company recognise acquisition costs in the profit and loss as incurred.
- Losses on onerous contracts and reversals of such losses.
- Adjustments to the liabilities for incurred claims that do not arise from the effects of the time value of money, financial risk and changes therein.
- Impairment losses on assets for insurance acquisition cash flows and reversals of such impairment losses, if any.

Net expenses from reinsurance contracts

Net expenses from reinsurance contracts comprise an allocation of reinsurance premiums paid less amounts recovered from reinsurers.

The Group and the Company recognise an allocation of reinsurance premiums paid in profit or loss as it receives services under groups of reinsurance contracts. For contracts not measured under the PAA, the allocation of reinsurance premiums paid relating to services received for each period represents the total of the changes in the asset or liability for remaining coverage that relate to services for which the Group and the Company expect to pay consideration.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(I) Insurance and reinsurance contracts - Presentation (cont'd.)

Net expenses from reinsurance contracts (cont'd.)

For contracts measured under the PAA, the allocation of reinsurance premiums paid for each period is the amount of expected premium payments for receiving services in the period.

For a group of reinsurance contracts covering onerous underlying contracts, the Group and the Company establishes a loss-recovery component of the asset for remaining coverage to depict the recovery of losses recognised:

- on recognition of onerous underlying contracts, if the reinsurance contract covering those contracts is entered into before or at the same time as those contracts are recognised; and
- for changes in fulfilment cash flows of the group of reinsurance contracts relating to future services that result from changes in fulfilment cash flows of the onerous underlying contracts.

The loss-recovery component determines the amounts that are subsequently presented in profit or loss as reversals of recoveries of losses from the reinsurance contracts and are excluded from the allocation of reinsurance premiums paid. It is adjusted to reflect changes in the loss component of the onerous group of underlying contracts, but it cannot exceed the portion of the loss component of the onerous group of underlying contracts that the Group and the Company expect to recover from the reinsurance contracts.

Insurance finance income and expenses

Insurance finance income and expenses comprise changes in the carrying amounts of groups of insurance and reinsurance contracts arising from the effects of the time value of money, financial risk and changes therein, unless any such changes for groups of direct participating contracts are allocated to a loss component and included in insurance service expenses (see Note 2.2 (k) - Contracts not measured under the PAA). They include changes in the measurement of groups of contracts caused by changes in the value of underlying items (excluding additions and withdrawals).

For both contracts with or without participation features, the Group and the Company present insurance finance income or expenses in profit or loss only.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(m) Insurance and reinsurance contracts - Transition

The Group's and the Company's transition approaches applied at the date of transition to MFRS 17 (1 January 2022) continue to impact a significant part of how the CSM balance as at 31 December 2024 and 31 December 2023 has been determined.

At 1 January 2022, the Group and the Company applied the following approaches to identify and measure all groups of contracts on transition to MFRS 17.

Year of issue	Transition approach
On or after 2022	- All groups: Full retrospective approach
Before 2022	- All groups: Fair value approach

Insurance and reinsurance contracts – Fair value approach

Under the fair value approach, the CSM (or the loss component) at 1 January 2022 was determined as the difference between the fair value of a group of contracts at that date and the fulfilment cash flows at that date.

For all contracts measured under the fair value approach, the Group and the Company used reasonable and supportable information available at 1 January 2022 to determine:

- how to identify groups of contracts;
- whether a contract meets the definition of a direct participating contract; and
- how to identify discretionary cash flows for contracts with direct participation features.

Some groups of contracts measured under the fair value approach contain contracts issued more than one year apart. For these groups, the discount rates on initial recognition were determined at 1 January 2022 instead of at the date of initial recognition.

For groups of reinsurance contracts covering onerous underlying contracts, the Group and the Company established a loss-recovery component at 1 January 2022. The Group and the Company determined the loss-recovery component by multiplying:

- the amount of the loss component that relates to the underlying contracts at 1 January 2022; and
- the percentage of claims on the underlying contracts that the Group and the Company expected to recover from the reinsurance contracts.

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(n) Other revenue recognition

Revenue is recognised when it satisfies a performance obligation by transferring a promised good or service to a customer, which is when the customer obtains control of that good or service. The following specific recognition criteria must also be met before revenue is recognised.

Rental income

Rental income from property is recognised on a straight-line basis over the term of the lease. The aggregate cost of incentives provided to lessees is recognised as a reduction of rental income over the lease term on a straight-line basis.

Interest income

Interest income is recognised on an accrual basis using the effective yield method. Fees and commissions that are an integral part of the effective yield of the financial asset or liability are recognised as an adjustment to the effective yield of the instrument. When a receivable is impaired, the Group and the Company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income.

Dividend income

Dividend income is recognised when the Group's and the Company's right to receive payment is established.

Realised gains and losses on investments

Realised gains and losses on investments recorded in the income statement include gains and losses on financial assets and investment properties. Gains and losses on the sale of investments are calculated as the difference between net sales proceeds and the original or amortised cost and are recorded on occurrence of the sale transaction.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(o) Income tax

Income tax on profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted or substantively enacted at the reporting date.

Deferred tax is provided for using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised as income or an expense and included in profit or loss for the period, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity.

(p) Provisions

Provisions are recognised when the Group and the Company have a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(q) Employee benefits

Short-term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group and the Company pay fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the income statement as incurred. As required by law, the Group and the Company make such contributions to the Employees Provident Fund ("EPF").

Defined benefit plans

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets (excluding net interest), are recognised immediately in other comprehensive income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.2 Summary of material accounting policies (cont'd.)

(r) Foreign currencies

The financial statements are presented in Ringgit Malaysia which is also the functional currency of the Company.

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are re-translated at the functional currency rate of exchange ruling at the reporting date. All differences are taken to profit or loss.

Non-monetary items that are measured in terms of historical cost in foreign currency are not subsequently restated. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. All foreign exchange differences are taken to profit or loss, except for differences relating to items where gains or losses are recognised directly in equity, in which case, the gain or loss is recognised net of the exchange component in equity.

(s) Financial liabilities

Financial liabilities are recognised when the Group and the Company become a party to contractual provisions of the instruments and measured on initial recognition at the fair value of the consideration received plus directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective yield method.

(t) Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, cash at bank and deposits held at call with financial institutions with original maturities of three months or less. Deposits with financial institutions held for investment purpose are presented as investment regardless of its maturity term.

2. Material accounting policies (cont'd.)

2.3 Changes in material accounting policies

The accounting policies and presentation adopted are consistent with those of the previous financial year.

2.4 Standards issued but not yet effective

The following are standards, amendments to standards and interpretation to the MFRS Accounting Standards that have been issued by MASB, but not yet effective, up to the date of this report. The Group and the Company intend to adopt these standards, amendments to standards and interpretations to standards, if applicable, when they become effective:

Description	Effective for annual periods beginning on or after
Amendments to MFRS 9 <i>Financial Instruments</i> and MFRS 7 <i>Financial Instruments: Disclosures – Classification and Measurement of Financial Instruments</i>	1 January 2026
Amendments that are part of Annual Improvements -Volume 11: <ul style="list-style-type: none"> • Amendments to MFRS 1 <i>First-time Adoption of Malaysian Financial Reporting Standards</i> • Amendments to MFRS 7 <i>Financial Instruments: Disclosures</i> • Amendments to MFRS 9 <i>Financial Instruments</i> • Amendments to MFRS 10 <i>Consolidated Financial Statements</i> • Amendments to MFRS 107 <i>Statement of Cash Flows</i> 	1 January 2026
Amendments to MFRS 9 <i>Financial Instruments</i> and MFRS 7 <i>Financial Instruments: Disclosures – Contracts Referencing Nature-dependent Electricity</i>	1 January 2026

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

2. Material accounting policies (cont'd.)

2.4 Standards issued but not yet effective (cont'd.)

The following are standards, amendments to standards and interpretation to the MFRS Accounting Standards that have been issued by MASB, but not yet effective, up to the date of this report. The Group and the Company intend to adopt these standards, amendments to standards and interpretations to standards, if applicable, when they become effective: (cont'd.)

Description	Effective for annual periods beginning on or after
MFRS 18 <i>Presentation and Disclosure in Financial Statements</i>	1 January 2027
MFRS 19 <i>Subsidiaries without Public Accountability: Disclosures</i>	1 January 2027
Amendment to MFRS 121 <i>The Effect of Changes in Foreign Exchange Rates - Translation to a Hyperinflationary Presentation Currency</i>	1 January 2027
Amendments to MFRS 10 <i>Consolidated Financial Statements</i> and MFRS 128 <i>Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	Yet to be confirmed

The initial application of the abovementioned accounting standards, interpretations and amendments is not expected to have any material financial impact to the current period and prior period financial statements of the Group and of the Company except as mentioned below:

MFRS 18, Presentation and Disclosure in Financial Statements

MFRS 18 will replace MFRS 101, *Presentation of Financial Statements* and applies for annual periods beginning on or after 1 January 2027. The new accounting standard introduces the following key requirements:

Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal.

Management-defined performance measures ("MPMs") are disclosed in a single note in the financial statements.

Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method.

The Group and the Company are currently assessing the impact of adopting MFRS 18.

2. Material accounting policies (cont'd.)

2.5 Use of estimates and judgments

The preparation of the Group's and of the Company's financial statements require management to make judgments, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future. These factors could include:

(a) Critical judgments made in applying accounting policies

The following are judgments made by management in the process of applying the Group's and the Company's accounting policies that have the most significant effect on the amounts recognised in the financial statements.

(i) Deferred tax assets (Note 13)

Deferred tax assets are recognised for various allowances and provisions to the extent that it is probable that taxable profit will be available against which these allowances and provisions can be utilised. Significant judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing of future taxable profits together with future tax planning strategies.

(ii) Income taxes (Note 24)

The Group and the Company are subject to income tax and other taxes and significant judgment is required in estimating the provision for income taxes. There are many transactions and interpretations of tax law for which the final outcome may not be established until later. Liabilities for taxation are recognised based on estimates of whether additional taxes will be payable. The estimation process includes seeking advice on the tax treatments where appropriate.

Where the final liability for taxation is different from the amounts that were initially recorded, the differences will affect the income tax and deferred tax provisions in the period in which the estimate is revised or the final liability is established.

(iii) Property and equipment (Note 3)

Property and equipment requires the review of the residual value and remaining useful life of an item of property and equipment at least at each financial year end.

Management estimates that the residual values and remaining useful lives are appropriate for the current financial year.

2. Material accounting policies (cont'd.)

2.5 Use of estimates and judgments (cont'd.)

(a) Critical judgments made in applying accounting policies (cont'd.)

(iv) Classification between investment properties and property and equipment (Notes 3 and 4)

The Group and the Company have developed certain criteria based on MFRS 140 *Investment Property* in making judgments whether a property qualifies to be classified as an investment property. Investment property is a property held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for administrative purpose. If these portions could be sold separately (or leased out separately under finance lease), the Group and the Company would account for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for administrative purposes.

(v) Impairment of receivables (Note 33 (d))

Measurement of ECL

The key inputs into the measurement of ECL are the term structures of the following variables:

- probability of default ("PD");
- loss given default ("LGD"); and
- exposure at default ("EAD").

To determine lifetime and 12-month PDs, the Group and the Company use a provision matrix (a simplified approach) which is based on its historical observed default rates over the expected life of the receivables. Additional macro-economic and forward looking information is considered when determining PD, such as the Group's and the Company's internal assessment of the correlation between the receivables and external factors.

(vi) Insurance contract classification (Note 8)

Contracts are classified as insurance contracts where they transfer significant insurance risk from the policyholder to the Group and to the Company. The Group and the Company exercise judgment about the level of insurance risk transferred. The level of insurance risk is assessed by considering whether the Group and the Company is required to pay significant additional benefits in excess of amounts payable when the insured event occurs. These additional benefits include claims liability and assessment costs, but exclude the loss of the ability to charge the policyholder for future services.

2. Material accounting policies (cont'd.)

2.5 Use of estimates and judgments (cont'd.)

(a) Critical judgments made in applying accounting policies (cont'd.)

(vi) Insurance contract classification (Note 8) (cont'd.)

The assessment covers the whole of the expected term of the contract where such additional benefits could be payable. Some contracts contain options for the policyholder to purchase insurance risk protection at a later date; these insurance risks are deemed not significant.

(vii) Right-of-use assets (Note 5) and lease liabilities (Note 14)

Determining the lease term of contracts with renewal and termination options

The Group and the Company determine the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group and the Company have several lease contracts that include extension and termination options. The Group and the Company apply judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group and the Company reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its liability to exercise or not to exercise the option to renew or to terminate.

2. Material accounting policies (cont'd.)

2.5 Use of estimates and judgments (cont'd.)

(a) Critical judgments made in applying accounting policies (cont'd.)

(vii) Right-of-use assets (Note 5) and lease liabilities (Note 14) (cont'd.)

Determining the lease term of contracts with renewal and termination options (cont'd.)

The Group and the Company included the renewal period as part of the lease term for leases of property with shorter non-cancellable period (i.e., three years). The Group and the Company typically exercises its option to renew for these leases because the rented properties are generally branches of the Group and of the Company and it is highly likely that the Group and the Company continue to rent the premises to serve the policyholders and agents. The renewal periods for leases of rented properties with longer non-cancellable periods (i.e., above 3 years) are not included as part of the lease term as these are not reasonably certain to be exercised.

Estimating the incremental borrowing rate

The Group and the Company cannot readily determine the interest rate implicit in the lease. Therefore, the Group and the Company apply judgement and assumptions in determining the incremental borrowing rate ("IBR") of the respective leases. The Group and the Company determine the closest available borrowing rates before using significant judgement to determine the adjustments required to reflect the term, security, value or economic environment of the respective leases.

(viii) Intangible assets (Note 6)

Computer applications software

The Group and the Company recognise the costs of significant development of knowledge based software and computer applications as intangible assets with finite useful lives. Such software and applications are unique to the requirements of the insurance business and the Group and the Company establish that these development costs will generate economic benefits beyond one year.

The Group and the Company estimate the useful lives of these software costs to be between 5 to 10 years.

The Group and the Company expect that amortisation on software under development will only commence after the software and computer applications are available to be used and generate future economic benefits.

2. Material accounting policies (cont'd.)

2.5 Use of estimates and judgments (cont'd.)

(b) Key sources of estimation uncertainty and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(i) Fair value of financial assets determined using valuation techniques (Note 35)

Fair value, in the absence of an active market, is estimated by using valuation techniques, such as recent arm's length transactions, reference to the current market value of another instrument which is substantially the same, discounted cash flow analysis and/or option pricing models. For reference to similar instruments, instruments must have similar credit ratings.

For discounted cash flow analysis, estimated future cash flows and discount rates are based on current market information and rates applicable to financial instruments with similar yields, credit quality and maturity characteristics. Estimated future cash flows are influenced by factors such as economic conditions (including country specific risks), concentrations in specific industries, types of instruments or currencies, market liquidity and financial conditions of counter-parties. Discount rates are influenced by risk-free interest rates and credit risk.

The fair value of the unquoted equity securities is estimated by approximating the net assets value of the investee, which was adjusted by the historical profit growth of the investee.

The valuation techniques described above are calibrated annually.

3. Property and equipment (cont'd.)

Included in the cost of property and equipment of the Group and of the Company are the cost of fully depreciated assets which are still in use amounting to RM36,073,000 (2024: RM29,984,000).

Properties

The revalued lands and buildings consist of an office building, a shop office and an apartment, which are located in various states in Malaysia.

The fair value of the properties was determined by using the cost method, other than fair value of an apartment which was determined by using the sales comparison method. Under the cost method, the apportionment value attributable to the lands is adopted whilst making due allowances for factors such as location, plot, size, accessibility and other relevant factors in determining the value of the lands, while current estimates on construction costs to erect equivalent buildings. Appropriate adjustments are then made for factors of obsolescence and existing physical condition of the building in determining the cost of the building. The comparison method entails comparing and adopting recent sales evidences involving other similar properties in the vicinity, adjusted for differences in location, size and shapes, accessibility, infrastructure available, improvements made on the site and other value considerations.

The properties' fair values are based on valuations performed by Raine & Horne International Zaki + Partners Sdn. Bhd., a registered independent valuer.

The Group and the Company have determined that the highest and best use of the properties is their current use.

Reconciliation of Level 3 fair value measurement:

Group and Company	Apartment RM'000	Shop office RM'000	Office building RM'000	Total RM'000
As at 1 January 2024	230	5,922	3,517	9,669
Depreciation recognised in profit or loss under management expenses	(10)	(83)	(88)	(181)
As at 31 December 2024	<u>220</u>	<u>5,839</u>	<u>3,429</u>	<u>9,488</u>

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)

3. Property and equipment (cont'd.)

Properties (cont'd.)

Reconciliation of Level 3 fair value measurement: (cont'd.)

Group and Company	Apartment RM'000	Shop office RM'000	Office building RM'000	Total RM'000
As at 1 January 2025	220	5,839	3,429	9,488
Depreciation recognised in profit or loss under management expenses	(11)	(91)	(91)	(193)
As at 31 December 2025	209	5,748	3,338	9,295

Fair value hierarchy disclosures for the properties have been provided in Note 35.

Description of valuation techniques used and key inputs to valuation of the properties are stated below:

Type of property	Valuation techniques	Key inputs	Weighted average	
Apartment	Comparison method	Price per square foot	Building	RM226
Multi-storey shop office /shop house	Cost method	Price per square foot	Land Building	RM1,834 RM120
7 ½-storey office building	Cost method	Price per square foot	Land Building	RM599 RM95

Significant increases/(decreases) in unobservable inputs in isolation would result in a significantly higher/(lower) fair value of the properties.

If land and buildings were measured using the cost model, the carrying amounts would be as follows:

	Group and Company	
	2025	2024
	RM'000	RM'000
Cost	1,500	1,500
Accumulated depreciation	(1,044)	(1,020)
Net carrying amount	456	480

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

4. Investment properties

	Group and Company 2024 RM'000
Investment properties	300
Fair value loss (Note 22)	(50)
Transfer to non-current assets held for sale (Note 10)	(250)
	<u>-</u>

The fair value of investment properties was determined by using cost method. Under the cost method, the apportionment value attributable to the land is adopted and making due allowances to factors of location, plot, size, accessibility and other relevant factor in determining the value of the land, while current estimates on constructional costs to erect equivalent buildings with appropriate adjustments are then made for factors of obsolescence and existing physical condition of the building are adopted in determining the cost of the building.

The properties' fair values are based on valuations performed by Raine & Horne International Zaki + Partners Sdn. Bhd., a registered independent valuer.

The Group and the Company has determined that the highest and best use of the properties is their current use.

Fair value hierarchy disclosures for investment properties have been provided in Note 35.

Description of valuation techniques used and key inputs to valuation on investment properties are stated below:

Type of property	Valuation technique	Key inputs	Weighted average	
Multi-storey shop office /shop house	Cost method	Price per square foot	Land	RM75
			Building	RM65

Significant increases/(decreases) in unobservable inputs in isolation would result in a significantly higher/(lower) fair value of the properties.

The amount of income and expenses recorded in profit or loss in respect of investment properties of the Group and of the Company are as follows:

	Group and Company 2024 RM'000
Direct operating expenses (including repairs and maintenance) generating rental income	(4)
Net expense arising from investment properties	<u>(4)</u>

There are no restrictions on the realisability of investment properties and no contractual obligations to either purchase, construct or develop investment properties or for repairs, maintenance and enhancements, other than routine building maintenance.

Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

5. Right-of-use assets

The Group and the Company as lessee

The Group and the Company have entered into various lease agreements for office premises and lands. Leases of office premises have lease terms between 1 and 3 years, while lands have lease terms between 34 and 99 years. The Group and the Company also lease certain equipment, software and services with lease term of 12 months or less or with low value. The Group and the Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Below are the carrying amounts of right-of-use assets recognised and the movements during the period:

Reconciliation of Level 3 fair value measurement:

Group and Company	Land	Office premises	Total
	RM'000	RM'000	RM'000
As at 1 January 2024	-	14,046	14,046
Additions (Note 14)	-	3,085	3,085
Lease modifications	-	(1,166)	(1,166)
Amortisation (Note 18)	-	(4,839)	(4,839)
As at 31 December 2024/1 January 2025	-	11,126	11,126
Additions (Note 14)	-	372	372
Transfer from non-current assets held for sale (Note 10)	175	-	175
Lease modifications	-	(2,206)	(2,206)
Amortisation (Note 18)	-	(5,123)	(5,123)
Revaluation deficit	(15)	-	(15)
As at 31 December 2025	160	4,169	4,329

The amount of expenses recorded in profit or loss of the Group and of the Company are as follows:

	Group and Company	
	2025	2024
	RM'000	RM'000
Management expense:		
Amortisation of right-of-use assets (Note 18)	5,123	4,839
Expense relating to leases of low-value assets	291	232
Interest expense on lease liabilities	360	699
	5,774	5,770

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

5. Right-of-use assets (cont'd.)

Cash outflows for leases as a lessee

	Group and Company	
	2025	2024
	RM'000	RM'000
Included in net cash from operating activities:		
Payment relating to leases of low-value assets	291	232
Interest paid in relation to lease liabilities	360	699
Included in net cash from financing activities:		
Payment of principal portion of lease liabilities	5,926	4,806
Total cash outflows for leases	6,577	5,737

Extension and termination options

The Group and the Company have several lease contracts that include extension and termination options. These options are negotiated by the Group and by the Company to provide operational flexibility in managing the properties portfolio and align with the Group's and the Company's business needs. The Group and the Company exercise significant judgement in determining whether these extension and termination options are reasonably certain to be exercised.

As of 31 December 2025, the Group and the Company have included all potential future cash flows of exercising the extension options in the lease liability.

The Group and the Company determine that the termination options are likely not to be exercised.

6. Intangible assets

	Group and Company

(b) Amortised cost

Loans receivables:			
Mortgage loans	2,515	2,515	2,430
Other loans	100	100	100
	2,615	2,615	2,530
Loss allowances (Note 33(d))	(985)	(985)	(869)
	<u>1,630</u>	<u>1,630</u>	<u>1,661</u>

The carrying value of the other loans are reasonable approximations of fair value due to the insignificant impact of discounting.

The fair values of the mortgage loans have been established by comparing current market interest rates for similar financial instruments to the rates offered when the mortgage loans were first recognised together with appropriate market credit adjustments. As there are no significant differences between these rates, the carrying value of mortgage loans approximates fair value as at 31 December 2025 and 31 December 2024.

(e) Fair values of financial instruments

The following tables show investments recorded at fair value analysed by the different bases as follows:

	Group	Company	Group and Company
	2025	2025	2024
	RM'000	RM'000	RM'000
FVTPL			
Quoted market price	758,256	758,256	828,273
Valuation techniques:			
- market observable inputs	3,417,234	3,416,868	3,442,507
- unobservable inputs	59,950	59,950	60,750
	<u>4,235,440</u>	<u>4,235,074</u>	<u>4,331,530</u>

Included in the quoted category are financial instruments that are measured in whole or in part by reference to marked-to-market prices. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange.

Financial instruments measured using a valuation technique based on assumptions that are supported by prices from observable current market transactions are instruments for which pricing is obtained via pricing services but where prices have not been determined in an active market, instruments with fair values based on broker quotes, investment in unit and property trusts with fair values obtained via fund managers and instruments that are valued using the Group's and the Company's own models whereby the majority of assumptions are market observable.

(f) Range of effective interest rates

The range of effective interest rates per annum for each class of interest-bearing investment and placements with licensed financial institutions are as below:

	Group and Company	Group and Company
	2025	2024
	%	%
Malaysian Government securities	2.86 - 3.89	3.41 - 4.09
Government investment issues	3.57 - 3.90	3.86 - 4.10
Malaysian Government guaranteed bonds	3.30 - 3.97	3.73 - 4.13
Unquoted debt securities	3.22 - 4.31	3.42 - 4.60
Deposits with financial institutions	2.80 - 3.60	3.05 - 4.10
Loans receivables	<u>4.00 - 9.75</u>	<u>4.00 - 9.75</u>

(h) Controlled structured entities

The Company invests in certain unit trust funds amounting to RM144,929,000 whose objectives to achieve short-term fixed income. The unit trust funds are managed by Berjaya Mutual Sdn Bhd and RHB Asset Management Sdn Bhd which apply various investment strategies to accomplish their respective investment objectives.

The Company holds over 95% to 100% of all the unit trust funds disclosed below, which are all established in Malaysia. The Company is exposed to, or has rights to variable returns from its involvement with the fund and has the ability to affect those returns through its power over the fund. Accordingly, the Company has control over these unit trust funds and has consolidated these unit trust funds. An exception is made for United-i Closed-End Series - Tactial Sukuk Fund, which was subscribed to in end of the financial year. As the requisite financial information was not available as at the reporting date, the fund has not been consolidated in the current financial year.

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates

(a) Fulfilment cash flows

Fulfilment cash flows comprise:

- estimates of future cash flows;
- an adjustment to reflect the time value of money and the financial risks related to future cash flows, to the extent that the financial risks are not included in the estimates of future cash flows; and
- a risk adjustment for non-financial risk.

The Group's and the Company's objective in estimating future cash flows is to determine the expected value of fulfilment that reflects the group and the company's best estimate of future cash flows, plus explicit risk adjustments that reflect the Group's and the Company's estimate for non-financial risk.

Estimates of future cash flows

In estimating future cash flows, the Group and the Company incorporate, in an unbiased way, all reasonable and supportable information that is available without undue cost or effort at the reporting date. This information includes both internal and external historical data about claims and other experience, updated to reflect current expectations of future events.

The estimates of future cash flows reflect the Group's and the Company's view of current conditions at the reporting date, as long as the estimates of any relevant market variables are consistent with observable market prices.

When estimating future cash flows, the Group and the Company take into account current expectations of future events that might affect those cash flows. However, expectations of future changes in legislation that would change or discharge a present obligation or create new obligations under existing contracts are not taken into account until the change in legislation is substantively enacted. The Group and the Company derives cost inflation assumptions from the inflation margin, added onto the base risk-free yield.

Cash flows within the boundary of a contract relate directly to the fulfilment of the contract, including those for which the Group and the Company have discretion over the amount or timing. These include payments to (or on behalf of) policyholders, insurance acquisition cash flows and other costs that are incurred in fulfilling contracts.

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates (cont'd.)

(a) Fullfilment cash flows (cont'd.)

Estimates of future cash flows (cont'd.)

Insurance acquisition cash flows arise from the activities of selling, underwriting and starting a group of contracts that are directly attributable to the portfolio of contracts to which the group belongs. Other costs that are incurred in fulfilling the contracts include:

- claims handling, maintenance and administration costs;
- recurring commissions payable on instalment premiums receivable within the contract boundary;
- costs that the Group and the Company will incur in performing investment activities to the extent that the Group and the Company performs them to enhance benefits from insurance coverage for policyholders by generating an investment return from which policyholders will benefit if an insured event occurs; and
- income tax and other costs specifically chargeable to the policyholders under the terms of the contracts.

Insurance acquisition cash flows and other costs that are incurred in fulfilling contracts comprise both direct costs and an allocation of fixed and variable overheads.

Cash flows are attributed to acquisition activities, other fulfilment activities and other activities at local entity level using activity-based costing techniques. Cash flows attributable to acquisition and other fulfilment activities are allocated to groups of contracts using methods that are systematic and rational and are consistently applied to all costs that have similar characteristics. The Group and the Company generally allocate insurance acquisition cash flows to groups of contracts based on the total premiums for each group, claims handling costs based on the number of claims for each group, and maintenance and administration costs based on the number of in-force contracts within each group. Other costs are recognised in profit or loss as they are incurred.

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates (cont'd.)

(a) Fullfiment cash flows (cont'd.)

Contract boundaries

The assessment of the contract boundary, which defines which future cash flows are included in the measurement of a contract, requires judgement and consideration of the Group and of the Company's substantive rights and obligations under the contract.

Insurance contracts	Some term assurance and critical illness contracts issued by the Group and by the Company have annual terms that are guaranteed to be renewable each year. The Group and the Company determines that the cash flows related to future renewals (i.e. the guaranteed renewable terms) of these contracts are outside the contract boundary. This is because the premium charged for each year reflects the Group's and the Company's expectation of its exposure to risk for that year and, on renewal, the Group and the Company can reprice the premium to reflect the reassessed risks for the next year based on claims experience and expectations for the respective portfolio. Any renewal of the contract is treated as a new contract and is recognised, separately from the initial contract, when the recognition criteria are met.
Reinsurance contracts	<p>Each of the Group's and the Company's quota share reinsurance contracts has an annual term, covers underlying contracts issued within the term on a risk-attaching basis and provides unilateral rights to both the Group and the Company and the reinsurer to terminate the cession of new business at any time by giving three months' notice to the other party. On initial recognition, the cash flows within the reinsurance contract boundary are determined to be those arising from underlying contracts that the Group and the Company expect to issue and cede under the reinsurance contract within the next three months. Subsequently, expected cash flows beyond the end of this initial notice period are considered cash flows of new reinsurance contracts and are recognised, separately from the initial contract, as they fall within the rolling three-month notice period.</p> <p>Each of the Group's and the Company's excess of loss and stop loss reinsurance contracts has an annual term and covers claims from underlying contracts incurred within the year (i.e. loss occurring). Cash flows within the contract boundary are those arising from underlying claims incurred during the year.</p>

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates (cont'd.)

(a) Fullfiment cash flows (cont'd.)

Mortality (Longevity)

Assumptions about mortality/longevity, morbidity and policyholder behaviour that are used in estimating future cash flows are developed by product type, reflecting recent experience and the profiles of policyholders within a group of insurance contracts.

Mortality/longevity and morbidity assumptions are developed based on the national mortality data, industry trends and the local entity's recent experience. Experience is monitored through regular studies, the results of which are reflected both in the pricing of new products and in the measurement of existing contracts.

The assumptions used, including loss ratios and future claims inflation, are derived from the historical experience, although judgement is applied to assess the extent to which past trends might not apply in the future and future trends are expected to emerge.

The assumptions applied differ by the type of underwriting style, of which there are 3 main underwriting groups:

(i) Normally underwritten contracts

These contracts are subject to the normal underwriting rules of the Group and of the Company. The risk exposure for these contracts is mostly Malaysian lives. Therefore the Malaysian mortality table is the basis for setting the assumption.

The latest Malaysian mortality (i.e. 2016-2020) is the basis for the assumption.

(ii) Automatically accepted contracts

These contracts have support from reinsurance arrangements to limit the Group's and the Company's mortality exposure. The basis for the assumption is the reinsurance risk rates applicable for the particular arrangement that the contract is covered by.

(iii) EPF Annuity

This is a closed block of life annuity contracts written during the years 2000 and 2001 via EPF. The A90 mortality table is the basis for assumption.

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates (cont'd.)

(a) Fullfiment cash flows (cont'd.)

Morbidity ("Critical Illness")

For contracts that provide benefits upon the diagnosis of any of the prescribed "critical conditions", the basis for the assumption is the reinsurance risk rate.

Lapse and Surrender

Assumptions about lapse and surrender that are used in estimating future cash flows are developed by product type, reflecting recent experience and the expected behaviour of the policyholders within the assumption group.

There are more than 30 assumption groups, each covering contracts that are expected to exhibit similar risk and policyholder behaviour on lapse and surrender. Within each assumption group, the lapse and surrender assumption differs further by the length of period elapsed for the contracts.

The assumption groups are set to reflect the major drivers that the Group and the Company believe to have an influence on lapse and surrender behaviour, including:

- Length of boundary
- Existence (or non-existence) of direct participating features
- Existence (or non-existence) of an investment component upon lapse and surrender
- Individual vs. Group contract
- Single premium vs. regular premium
- For EPF annuity contracts before 65 years old, by attained age because the payment upon surrender is related to the attained age.

While setting the assumptions, we may apply the same assumptions onto more than one of the contract groups. The experience for each of the contract groups is too small to be of acceptable credibility, and we perform the experience study with multiple groups grouped together into larger groups that we believe exhibit the same lapse and surrender behaviour (based on the major influencing factors as described).

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates (cont'd.)

(a) Fullfiment cash flows (cont'd.)

Illiquidity Premium

To reflect the liquidity characteristics of the insurance contracts, the risk-free yield curves are adjusted by an illiquidity premium where applicable to certain contract groups that are assessed as "illiquid contracts". Illiquidity premium is calculated by comparing the expected returns of the allocation of that contract group into assets classes that are deemed illiquid, and calculate their average return spread over the equivalent 10-year Malaysian Government bond. The assets that are deemed as illiquid are "Low Risk bonds" and corporate bonds.

As at the reporting date we determined that 3 of our contract groups are assessed to be "illiquid" and we apply an illiquidity premium of 0.15% onto the yearly discount rate. These contract groups are:

- Individual non-profit savings contracts;
- group mortgage contracts; and
- individual non-profit savings contracts with non-dripping unit account and boundaries of at least 25 years.

Risk adjustments for non-financial risk

Risk adjustments for non-financial risk are determined to reflect the compensation that the individual issuing entity would require for bearing non-financial risk and are allocated to groups of contracts based on an analysis of the risk profiles of the groups.

The approach for determing the fulfillment cash flows with risk adjustment is via adjustments in the projection assumptions used for the Best Estimate Liability of Fulfilment Cash Flows ("BEL FCF"). The amount of risk adjustment ("RA") would then be:

By default, the RA is calculated as the excess of the discounted value of the FCF projected at BEL+RA level over the discounted value at BEL. For certain contract groups the RA is calculated using different subsets of fulfillments as a result of the different designs of the contracts:

- Participating: the excess of the discounted value of the total FCF projected at BEL+RA level over the discounted value at BEL;
- Participating (investment-linked): the excess of the discounted value of the entity FCF projected at BEL+RA level over the discounted value at BEL;
- Short-term: the excess of the undiscounted value of the liability for remaining coverage at the BEL+RA level over the liability for remaining coverage at BEL.

The risk adjustment aims to secure at least a 75% confidence level for the fulfillment.

8. Insurance and reinsurance contracts (cont'd.)

8.4 Significant judgements and estimates (cont'd.)

(b) Contractual service margin

Determination of coverage units

The CSM of a group of contracts is recognised in profit or loss to reflect services provided in each year based on the number of coverage units provided in the year, which is determined by considering for each contract the quantity of the benefits provided and its expected coverage period. The coverage units are reviewed and updated at each reporting date.

For all contracts, the basis for determining the coverage unit is driven by the level of contractual benefits that the entity is obliged to pay to the policyholder.

Type of contract	Basis for driving coverage unit
Participating annuity	- Before annuity commences: surrender value, or mortality benefit if higher - After annuity commences: discounted value of life annuity
Participating others	Max (surrender value, asset share, insurance benefit)
Non-participating	Max (surrender value, insurance benefit)
Investment-linked	Insurance benefit
Medical contracts	Remaining claimable medical benefit
Reinsurance	Benefit reinsured

Risk mitigation option

The Group and the Company use reinsurance contracts to mitigate the insurance risk underwritten.

(c) Investment components

The Group and the Company identify the investment component of a contract by determining the amount that it would be required to repay to the policyholder in all scenarios with commercial substance. These include circumstances in which an insured event occurs or the contract matures or is terminated without an insured event occurring. Investment components are excluded from insurance revenue and insurance service expenses.

For reinsurance contracts held, the investment component is an amount that the Group and the Company would receive under all possible scenarios, whether had there been no claims recovered, small claims recovered (resulting in a reinsurance profit sharing being paid) or excessive claims recovered (resulting in a reinsurance loss carried forward).

9. Other receivables

	Group 2025 RM'000	Company 2025 RM'000	Group and Company 2024 RM'000
Financial assets:			
Income due and accrued	34,112	33,423	35,705
Other receivables	2,857	2,846	2,896
Due premiums including agents/brokers and coinsurers balances	99	99	102
	37,068	36,368	38,703
Non-financial assets:			
Prepayments	7,330	7,330	5,049
	44,398	43,698	43,752

The carrying amounts of financial assets above approximate their fair values due to the relatively short-term maturity of these balances.

10. Non-current assets held for sale

	Note	Group and Company	
		2025 RM'000	2024 RM'000
At 1 January		946	696
Transfer from investment properties	4	-	250
Transfer back to PPE		(521)	-
Transfer back to ROU assets	5	(175)	-
Disposals		(250)	-
At 31 December		-	946

The Group and the Company classify non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

Property and equipment are not depreciated or amortised once classified as held for sale.

Non-current assets classified as held for sale and any cumulative income or expense recognised in other comprehensive income relating to assets classified as held for sale are presented separately as current items in the statement of financial position.

11. Share capital

	Group and Company			
	2025		2024	
	No. of shares (’000)	RM’000	No. of shares (’000)	RM’000
Issued and paid-up:				
Ordinary shares				
At beginning and end of year	100,284	125,024	100,284	125,024

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Group and of the Company.

The Group and the Company has issued ordinary shares that are classified as equity. Incremental external costs that are directly attributable to the issue of these shares are recognised in equity, net of tax.

12. Retained profits

The non-distributable retained profits represent the unallocated surplus from the Participating and Non Participating funds. In accordance with Section 83 of the Financial Services Act 2013, the unallocated surplus is only available for distribution to the shareholders upon recommendation by the Appointed Actuary.

Pursuant to the single tier tax system, any dividends distributed by the Group and by the Company will be exempted from tax in the hands of shareholders. The Group and the Company shall not be entitled to deduct tax on dividend paid, credited or distributed to shareholders.

The Group and the Company may distribute single tier exempt dividend to its shareholders out of its retained earnings. Pursuant to Section 51(1) of the FSA, the Company is required to obtain BNM's written approval prior to declaring or paying any dividend. Pursuant to the RBC Framework for Insurers, the Group and the Company shall not pay dividends if its Capital Adequacy Ratio position is less than its internal target capital level or if the payment of dividend would impair its Capital Adequacy Ratio position to below its internal target capital level.

(Incorporated in Malaysia)

13. Deferred tax liabilities (cont'd.)

The components and movements of deferred tax liabilities and assets during the financial year prior to offsetting are as follows (cont'd.):

Group and Company	Accretion and amortisation on investment assets RM'000	Unabsorbed tax losses and unutilised tax exemptions RM'000	Total RM'000
Deferred tax assets			
At 1 January 2024	(5,663)	(2,328)	(7,991)
Recognised in income statement	4,777	(6,897)	(2,120)
At 31 December 2024/1 January 2025	(886)	(9,225)	(10,111)
Recognised in income statement	204	(11,770)	(11,566)
At 31 December 2025	(682)	(20,995)	(21,677)

Unrecognised deferred tax assets

The Group and the Company has unrecognised deferred tax asset arising from the following (stated at gross):

	Group and Company	
	2025	2024
	RM'000	RM'000
Unabsorbed tax losses in shareholders fund	42,033	38,286
Unutilised tax exemptions	18,194	12,154
	<u>60,227</u>	<u>50,440</u>

The unabsorbed tax losses are allowed to carry forward for a maximum 10 years under the current tax legislation. There is no expiry date for deductible temporary difference and unutilised capital allowances where deferred tax assets were not recognised.

The unabsorbed tax losses will expire in the following years of assessments as shown below:

	Group and Company	
	2025	2024
	RM'000	RM'000
Expiring in 2033	3,637	3,637
Expiring in 2034	34,649	34,649
Expiring in 2035	3,747	-
	<u>42,033</u>	<u>38,286</u>

Malaysia have substantively enacted new legislation to implement the global minimum top-up tax. The Group and the Company is subjected to the top-up tax. However, the Group and the Company does not expect the legislation to have a material impact on its financial position or results of operations.

		<u>65,868</u>	<u>64,751</u>	<u>51,686</u>

(i) Provision for retirement medical benefits

This relates to medical benefits provided to certain former employees after retirement. The movement of the present value of the defined benefit obligation recognised in the statement of financial position is as follows:

	Group and Company	
	2025	2024
	RM'000	RM'000
As at 1 January	4,959	8,603
Provision made/(released) during the year	405	(3,668)
Medical benefits paid	(363)	(380)
Unwinding of discount rate	256	404
As at 31 December	5,257	4,959

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

15. Other payables (cont'd.)

(i) Provision for retirement medical benefits (cont'd.)

Principal actuarial assumptions used at the end of the financial year is as follows:

	2025	2024
Group and Company		
Mortality	2022 Abridged Life Table	
Inflation rate (per annum)	10%	10%

The mortality assumption is based on the 2022 Abridged Life Table by the Department of Statistics Malaysia.

The discount rate used is the best estimate of investment returns for participating and annuity business. The gross investment return is 5.50% (2024: 5.50%) for the participating business and 5.00% (2024: 5.00%) for the annuity business. The spot-yields curve of MGS is used for non-participating and investment-linked non-unit funds.

The following tables demonstrates the sensitivity of provision for retirement medical benefits to a reasonable change in discount rate on profit before taxation and equity:

	<----- Increase/(Decrease) ----->		
	Changes in basis points	Impact on profit before taxation RM'000	Impact on equity* RM'000
Group and Company			
2025			
Interest rates	+ 100 bps	101	77
Interest rates	- 100 bps	(107)	(81)
2024			
Interest rates	+ 100 bps	98	75
Interest rates	- 100 bps	(105)	(80)

* Impact on equity reflects adjustments for tax, when applicable.

The carrying amounts of financial liabilities disclosed above approximate fair value at the reporting date.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

15. Other payables (cont'd.)

(ii) Amount due to other unitholders

Amount due to other unitholders is the non-controlling interests investment in unit trust funds. For the year ended 31 December 2025, the profit attributable to these non-controlling interests amounted to RM1,057,000.

16. Subordinated notes

	Group and Company	
	2025	2024
	RM'000	RM'000
RM200.0 million Tier 2 subordinated notes, net of expenses	199,263	199,161
Add: interest payable	87	58
	199,350	199,219
Payable within 12 months	87	58
Payable after 12 months	200,000	200,000
	200,087	200,058
Less: Amortisation of transaction cost	(737)	(839)
	199,350	199,219

In 29 December 2021, the Group and the Company issued subordinated notes of RM200.0 million nominal value for a period of 10 years on a 10 non-callable 5 basis with a coupon rate of 5.30% per annum.

The subordinated notes are unsecured liabilities and classified as Tier 2 capital under Risk Based Capital Framework for Insurers.

Reconciliation of changes in liabilities arising from financing activities:

	Group and Company	
	2025	2024
	RM'000	RM'000
At 1 January	199,219	199,152
Amortisation of transaction cost	102	96
Accrued interest	10,600	10,629
Interest paid	(10,571)	(10,658)
At 31 December	199,350	199,219

The fair value of the subordinated notes amounted to RM221,545,000 (2024: RM219,189,000), estimated based on discounted cash flow model using current yield curve appropriate for the remaining term to maturity.

24. Taxation

The Malaysian tax charge on the life insurance business is based on the method prescribed under the Income Tax Act 1967 for the life funds and shareholder's fund.

The income tax for shareholder's fund is calculated based on the tax rate of 24% (2024: 24%) of the estimated assessable profit for the financial year. The income tax for the life fund is calculated based on the preferential tax rate of 8% (2024: 8%) of the assessable investment income net of allowable deductions of the life fund for the financial year.

	Group 2025 RM'000	Company 2025 RM'000	Group and Company 2024 RM'000
Taxation of the Group and of the Company	2,706	2,704	13,566

24. Taxation (cont'd.)

(a) Reconciliation of income tax expense

A reconciliation of income tax expense applicable to profit before taxation of the Group and of the Company at the statutory income tax rate to income tax expense at the effective income tax rate is as follows:

	Group 2025 RM'000	Company 2025 RM'000	Group and Company 2024 RM'000
Profit/(Loss) before taxation	(18,611)	(18,613)	(539)
Taxation at Malaysian statutory tax rate of 24% (2024: 24%)	(4,467)	(4,467)	(129)
Tax expense attributable to policyholders	1,766	1,766	14,680
Expenses/(Income) not deductible for tax purposes (Over)/Under provision of income tax expense in prior years	5,563	5,561	(2,663)
	(156)	(156)	1,678
Tax expense for the year	<u>2,706</u>	<u>2,704</u>	<u>13,566</u>

25. Earnings per share

Earnings per share is calculated by dividing profit for the financial year attributable to ordinary share holders of the Group and of the Company by the weighted average number of ordinary shares in issue during the financial year.

	Group and Company	
	2025	2024
Loss attributable to ordinary share holders: (RM'000)	(21,317)	(14,105)
Weighted average number of shares in issue ('000)	100,284	100,284
Basic and diluted loss per share: (sen)	<u>(21.3)</u>	<u>(14.1)</u>

There were no dilutive potential ordinary shares as at the reporting date.

There have been no other transactions involving ordinary shares between the reporting date and the date of issuance of these financial statements.

27. Operating lease arrangements

The Group and the Company as lessor

The Group and the Company have entered into non-cancellable operating lease arrangements on its portfolio of properties. The leases have remaining non-cancellable lease terms of between 1 and 3 years. All leases include a clause to enable upward revision of the rental charge on an annual basis based on prevailing market conditions.

The future minimum lease payments receivable under non-cancellable operating leases contracted for as at the reporting date but not recognised as receivables, are as follows:

	Group and Company	
	2025	2024
	RM'000	RM'000
Receivable within one year	202	271
Receivable after one year	75	208
	<u>277</u>	<u>479</u>

28. Capital commitments

The commitments of the Group and of the Company as at the reporting date are as follows:

	Group and Company	
	2025	2024
	RM'000	RM'000
Approved and contracted for:

(b) Key management personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group and of the Company, directly or indirectly. In line with this classification, the key management personnel of the Group and of the Company includes directors, CEO and the senior management team.

The remuneration of key management personnel during the year was as follows:

	Group and Company	
	2025	2024
	RM'000	RM'000
Directors' remuneration:		
Directors' allowances and other emoluments	1,613	1,574
	<hr/>	<hr/>
	Group and Company	
	2025	2024
	RM'000	RM'000
CEO's remuneration:		
Salary and allowances	2,556	2,338
Bonus	936	1,093
Other benefits	590	539
	<hr/>	<hr/>
	4,082	3,970
	<hr/>	<hr/>
Other key management personnel:		
Wages and salaries	8,437	7,574
Other short term benefits	5,092	5,157
Benefits-in-kind	115	29
	<hr/>	<hr/>
	13,644	12,760
	<hr/>	<hr/>

30. Regulatory capital requirement

The capital structure of the Company as prescribed under RBC Framework is provided as below:

	2025	2024
	RM'000	RM'000
Tier 1 capital		
Share capital (paid-up)	125,024	125,024
Reserves, including retained earnings	603,564	702,807
	<hr/>	<hr/>
	728,588	827,831
Tier 2 capital

	(32,175)	(27,785)
Total capital available as at 31 December	<hr/>	<hr/>
	903,070	1,006,797
	<hr/>	<hr/>

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

31. Contingent liabilities

There were no contingent liabilities as at the date of this report.

32. Insurance risk

Insurance risk is the risk that inadequate or inappropriate underwriting, claims management, product design and pricing will expose the Group and the Company to financial loss and may result in the inability to meet its liabilities.

The Group's and the Company's life insurance businesses are exposed to a range of life insurance risks from various products. In providing insurance protection, the Company has to manage risks such as mortality (the death of policyholder), morbidity (ill health), longevity (annuity), persistency (lapse), product design and pricing.

The mortality and morbidity risks are managed through the use of reinsurance to transfer risks in excess of the Group's and of the Company's risk appetite, appropriate actuarial methodologies/techniques for reserving as well as other risk mitigating measures.

Persistency (or lapse) risk is managed through monitoring of experience. Where possible, the potential financial impact of lapses is reduced by persistency management, product design requirements, experience monitoring and management actions.

Poorly designed or inadequately priced products may lead to both financial loss and reputation risk to the Group and to the Company. Policies have been developed to support the Group and the Company through complete product development processes, financial analysis and pricing.

The table below shows the concentration of life insurance contract liabilities by type of contract as at the reporting date:

The comparative amount is restated to conform to current period's presentation.

Group and Company	Direct Reinsurance		Net
	Insurance Contracts	Contracts Held	
Life insurance contract liabilities (Net liabilities)	RM'000	RM'000	RM'000
2025			
Life risk	(584,033)	18,527	(565,506)
Participating	(3,127,971)	13,360	(3,114,611)
Short-term	(141,634)	29,122	(112,512)
	<u>(3,853,638)</u>	<u>61,009</u>	<u>(3,792,629)</u>

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

32. Insurance risk (cont'd.)

The table below shows the concentration of life insurance contract liabilities by type of contract as at the reporting date: (cont'd.)

Group and Company	Direct Reinsurance		Net
	Insurance Contracts	Contracts Held	
Life insurance contract liabilities (Net liabilities)	RM'000	RM'000	RM'000
2024			
Life risk	(623,536)	12,696	(610,840)
Participating	(3,128,865)	6,531	(3,122,334)
Short-term	(107,457)	(3,168)	(110,625)
	<u>(3,859,858)</u>	<u>16,059</u>	<u>(3,843,799)</u>

As all of the business is derived from Malaysia, the entire life insurance contract liabilities are in Malaysia only.

Key assumptions

Material judgment is required in the choice of assumptions to determine the value of life insurance liabilities. Assumptions in use are based on past experience, current internal data, external market indices and benchmarks which reflect current observable market prices and other published information. Assumptions and prudent estimates are determined at the date of valuation and further evaluated on a continuous basis in order to ensure realistic and reasonable valuations.

The sensitivity analysis below shows the impact of changes in key assumptions on the value of life insurance liabilities. The analysis below is performed for reasonably possible movements in key assumptions with all other assumptions held constant, showing the impact on liabilities. The correlation of assumptions will have a significant effect in determining the liabilities, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis.

There are no material change to the methods used to derive assumptions from the previous year.

32. Insurance risk (cont'd.)

Key assumptions (cont'd.)

The table below analyses how the CSM, profit or loss and equity would have increased/ (decreased) if changes in underwriting risk variables that were reasonably possible at the reporting date had occurred. This analysis presents the sensitivities both before and after risk mitigation by reinsurance and assumes that all other variables remain constant.

Group and Company	Change in assumptions %	CSM		Profit or loss		Equity

33. Financial risk

Market and credit risk

Market risk is the risk of asset or liability values being adversely affected by movement in the market prices or rates. This includes interest rate risk, currency risk and equity price risk.

The Group and the Company manage market risk by setting policies on asset allocation, investment limits and diversification benchmarks. The Group and the Company adopts the asset liability matching criteria to minimise the impact of mismatches between the values of assets and liabilities from market movements.

Exposure to fixed income securities provides the Group's and the Company's largest market risk exposure. The Group and the Company monitor its exposure levels through regular stress/sensitivity testing and constant market supervision of the asset prices. The Group and the Company have not transacted in any derivatives.

(a) Interest rate risk

Interest rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Floating rate instruments expose the Group and the Company to cash flow interest rate risk, whereas fixed rate instrument expose the Group and the Company to fair value interest rate risk. The Group and the Company's exposure to interest rate risk arises primarily from investment in fixed income securities and deposits with licensed institutions.

The carrying amount, by maturity, of the Group's and of the Company's financial instruments that are exposed to interest rate risk is as disclosed in Note 7(g).

Sensitivity analysis:

The analysis that follows is performed for reasonably possible movements in key variables with all other variables held constant, showing the impact on profit before taxation (due to changes in fair value of floating rate financial assets and liabilities) and equity (that reflects adjustments to profit before taxation). The correlation of variables will have a significant effect in determining the ultimate impact on interest rate risk, but to demonstrate the impact due to changes in variables, variables had to be changed on an individual basis. It should be noted that movements in these variables are non-linear.

33. Financial risk (cont'd.)

Market and credit risk (cont'd.)

(a) Interest rate risk (cont'd.)

Group and Company	<----- (Decrease)/Increase ----->		
	Changes in basis points	Impact on profit before taxation RM'000	Impact on equity* RM'000
2025			
Interest rates	+ 100 bps	(37,747)	(28,753)
Interest rates	- 100 bps	20,797	15,841
2024			
Interest rates	+ 100 bps	(40,067)	(30,514)
Interest rates	- 100 bps	26,641	20,287

* Impact on equity reflects adjustments for tax, when applicable.

The method used for deriving sensitivity information and significant variables did not change from the previous year.

The impact from change in interest rate to the CSM, profit or loss and equity have been disclosed in Note 32.

(b) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group's and the Company's primary transactions are carried out in Ringgit Malaysia (RM) with minimal exposure to foreign currency risks.

(c) Equity price risk

Equity price risk is the risk that the fair value of equity assets will be adversely affected by movement in market prices (other than those arising from interest risk or currency risk), whether those changes are caused by factors specific to the individual financial instruments or its issuer or factors affecting similar financial instruments traded in the market.

MCIS Insurance Berhad
Registration No: 199701019821 (435318-U)
(Incorporated in Malaysia)

33. Financial risk (cont'd.)

Market and credit risk (cont'd.)

(c) Equity price risk (cont'd.)

The Group's and the Company's exposure to equity price risk arises from its investment in quoted equities traded in the Bursa Malaysia. The Group and the Company manage their exposure to equity price risk by setting policies and investment parameters governing asset allocation and investments limits, having regard to such limits stipulated by BNM as well as specific assessment for equity investments falling below 30% of its average historical cost or a prolonged decline in value for 12 consecutive months.

Sensitivity analysis:

The analysis below is performed for reasonably possible movements in key variables with all other variables held constant, showing the impact on profit before taxation (due to changes in fair value of financial assets and liabilities whose fair values are recorded in the income statement) and equity (that reflects adjustments to profit after taxation). The correlation of variables will have a significant effect in determining the ultimate impact on price risk, but to demonstrate the impact due to changes in variables, variables had to be changed on an individual basis. It should be noted that movements in these variables are non-linear.

(Incorporated in Malaysia)

33. Financial risk (cont'd.)

Market and credit risk (cont'd.)

(d) Credit risk

Credit risk is the risk of a financial loss resulting from the failure of an intermediary or counterparty to settle its financial and contractual obligations to the Group and to the Company as and when they fall due.

The Group's and the Company's primary exposure to credit risk arises through its investment in fixed income securities and deposits, obligations of reinsurers through reinsurance contracts and receivables from sales of insurance policies. The Group and the Company has in place a credit control policy and investment policy to manage its credit risk.

The Group and the Company manage the exposure to individual counterparties pertaining to its investment in fixed income securities, by measuring the exposure against internal limits, taking into consideration the credit ratings issued by the authorized rating agencies.

The Group and the Company actively monitor and consider the risk of a fall in value of the fixed income securities from changes in the credit worthiness of the issuer by managing individual exposures as well as the concentration of credit risks in its fixed income portfolio through asset allocation, observing minimum credit rating requirements, maximum limits for corporate debt, maximum duration as well as setting maximum permitted exposures to individual counterparties or group of counterparties.

Cash and deposits are placed with financial institutions licensed under the Financial Services Act, 2013 which are regulated by BNM, guided by the Group and the Company's approved exposure limits and minimum credit rating requirements.

Reinsurance arrangements are only placed with providers who meet the Group's and the Company's counterparty credit standards and satisfy the minimum credit rating requirements of the Group and of the Company. The Group and the Company review the credit condition of its reinsurers on an on-going basis and reviews its reinsurance arrangements periodically. The Group and the Company cede business to reinsurers that satisfy the minimum credit rating requirements of the Group and of the Company.

In the unit-linked business, the policyholder bears the investment risk on the assets held in the unit-linked funds, as the policy benefits are directly linked to the value of the assets in the fund. Therefore, the Group and the Company have no material credit risk on unit-linked financial assets.

33. Financial risk (cont'd.)

Market and credit risk (cont'd.)

(d) Credit risk (cont'd.)

Credit exposure (cont'd.)

It is the Group's and the Company's policy to maintain accurate and consistent risk ratings across its credit portfolio. This enables management to focus on the applicable risks and the comparison of credit exposures across all lines of business and products. The rating system is supported by a variety of financial analytics combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Group and the Company's rating policy. The attributable risk ratings are assessed and updated regularly.

The Group and the Company have not provided the credit risk analysis for the financial assets of the unit linked business where the liability to policyholders is linked to the performance and value of the assets that back those liabilities. The shareholders do not have direct exposure to any credit risk in those assets.

Reconciliation of allowance for impairment

Movement in allowances for impairment for financial assets are as follows:

Group and Company	Loans receivables RM'000 (Note 7(b))
Life-time expected credit loss	
At 1 January 2024	778
Charge for the year	91
At 31 December 2024/1 January 2025	<u>869</u>
Charge for the year	116
At 31 December 2025	<u>985</u>

(Incorporated in Malaysia)

33. Financial risk (cont'd.)

Market and credit risk (cont'd.)

(e) Cash flow and liquidity risk

Liquidity risk is the risk that the Group and the Company is unable to meet its obligations due to insufficient liquid resources, or would have to incur excessive cost in meeting the obligations. In respect of catastrophic events, there is also a liquidity risk associated with the timing differences between gross cash outflows and expected reinsurance recoveries.

The Group and the Company manages the liquidity risk by monitoring daily cash inflows and outflows and by ensuring a reasonable amount of financial assets are kept in liquid instruments at all times. The Group and the Company also practices asset-liability management and ensures that the average investment duration and maturity profiles match the Group's and the Company's liabilities.

Maturity profiles

The table below summarises the maturity profile of the financial and insurance assets and financial and insurance liabilities of the Group and of the Company based on remaining undiscounted contractual obligations, including interest payable and receivable.

For insurance contract liabilities and reinsurance assets, maturity profiles are determined based on estimated timing of net cash outflows from the recognised insurance liabilities.

Unit linked liabilities are repayable or transferable on demand and are included in the "up to a year" column. Repayments which are subject to notice are treated as if notice were to be given immediately.

34. Operational risks

Operational risk is the risk of loss arising from inadequate or failed internal processes, people and systems, or from external events.

The Group and the Company mitigates operational risks by establishing a proper framework for controls and procedures, which includes total risk profiling, documented procedures, proper segregation of duties, access controls, authorization and reconciliation procedures and staff training.

The Risk Management and Compliance Department assesses the effectiveness of the operational compliance and report to the Governance, Risk and Compliance Committee and BRMC.

35. Fair value measurement

The Group and the Company categorises its fair value measurements in accordance to the fair value hierarchy which is based on the priority of inputs to the valuation. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets, a lower priority to valuation techniques based on observable inputs and the lowest priority to valuation techniques based on unobservable inputs. An active market for the asset is a market in which transactions for the asset occur with sufficient frequency and volume to provide reliable pricing information on an on-going basis.

A level is assigned to each fair value measurement based on the lowest level input significant to the fair value measurement in its entirety. The three-level hierarchy is defined as follows:

Level 1 - Quoted prices in active markets

Fair value measurements that reflect unadjusted, quoted prices in active markets for identical assets that the Group and the Company has the ability to access at the measurement date. Valuations are based on quoted prices reflecting market transactions involving assets or liabilities identical to those being measured.

Level 2 - Valuation technique supported by observable inputs

Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the financial asset or financial liabilities, either directly or indirectly. These include quoted prices for similar financial assets and financial liabilities in active markets, quoted prices for identical or similar financial assets and financial liabilities in inactive markets, inputs that are observable that are no prices (such as interest rates, credit risks, etc.) and inputs that are derived from or corroborated by observable market data.

Level 3 - Valuation technique supported by unobservable inputs

Fair value measurements using significant non market observable inputs. These include valuations for financial assets and financial liabilities that are derived using data, some or all of which is not market observable, including assumptions about risks.
