Step 3 Can you afford the increase in Insurance Charges (IC) over time?

IC Projection Table

Age Next Birthday	Current IC upon attained age (RM)	Estimated IC		Over the long term, you can reduce IC payable by choosing plans with:
		Based on medical inflation of 7% ¹ per annum (RM)	Based on medical inflation of 10% ¹ per annum (RM)	
30	2,236.00	2,392.52	2,459.60	(a) A higher deductible. (b) A lower Overall Annual Limit.
35	2,398.00	3,598.75	4,248.20	
40	2,421.00	5,095.85	6,907.40	
45	2,505.00	7,395.17	11,510.41	
50	2,674.00	11,071.86	19,788.27	

- The projection above is solely for **illustration purposes only.**
- IC are affected by both the increase in treatment costs and the increased use of healthcare services by policy owners. This can result in actual medical inflation rate being higher or lower than the above illustration. We are undertaking the necessary cost containment measures in co-operation with other stakeholders to manage IC increases over time.
- The actual IC you will have to pay depends on the actual medical inflation of the plan you purchased. **Arising from medical inflation, current IC level may not be enough to cover future claims.**
- The IC illustrated includes the loading applicable for this plan.

¹This is the year-on-year increase in the average treatment cost as billed by hospitals to the insurance and takaful industry from years 2020 to 2023

- You must answer the questions that we ask fully and accurately. Failure to take reasonable care in answering the questions may result in rejection of your claim or termination of your rider.
- The rider term and IC may vary depending on the underwriting requirements of MCIS Insurance Berhad.
- If you decide you do not want this rider within 15 days from the delivery of the supplementary contract, you can contact us to cancel your rider and the IC which have been deducted less any medical expenses incurred will be refunded to the Account Value.
- Your coverage will only start 30 days after the effective date of the policy, except for hospitalisation as a result of accident.
